SPECS CONTINUES TO GROW

SPECS Limited establishes new office in Newfoundland

Langley, BC, April 10, 2018– SPECS Limited, Canada’s leading independent provider of property damage consulting has expanded its national footprint with the opening of a new office in Newfoundland. The office will be managed by Barry Whittle, a seasoned construction and restoration professional.

Located on the Avalon Peninsula, in Conception Bay, this new branch office is well positioned to service both Newfoundland and Labrador.

We are very excited to have Barry Whittle on our team. Barry has worked on the island in the field of construction and restoration for over 20 years. For many years Barry and his family have successfully owned and operated a full-service construction and renovation company.

Barry is exceptionally knowledgeable, efficient, and service focused. He knows the region and has developed strong relationships that will serve him well as he builds his team at this new branch location.

On behalf of the entire national SPECS team, we would like to welcome Barry and wish him great success moving forward.

About SPECS

SPECS delivers highly-specialized consulting services to private and public organizations. Our team conducts pre- and post-loss structural and content appraisals, accelerates insurance claim processes, and administers construction cost-control. For over 20 years, our accuracy, industry-leading knowledge, and neutral approach has been utilized on projects of all sizes and complexity.
