## ASSET STORAGE + TRACKING

### Helping You to Manage Change

In our fast-paced business environment, the ability to manage space changes to meet business requirements is critical. The process of storing and managing excess chairs, workstations, desks, and other equipment is complex and time-consuming. Red Thread can help you maximize the return on your investment by allowing you to focus instead on your core business.

With over 240,000 square feet of storage facilities and a sophisticated bar code-based system for inventory tracking and reporting, we'll keep everything in order for you, ensure it's in top condition, and bring it to your site when you need it. As a single resource for all your asset management needs, we'll help you cost-effectively manage change in your facility.

#### Our capabilities include:

- Site assessment and program development
- Asset database system
- Appraisal and condition rating
- Rack storage
- Bar coding and tracking
- Onsite or off-site warehouse programs
- Warehouse facilities with controlled access
- Delivery and installation services
- Reconfiguration services
