

CUSTOM SOLUTIONS

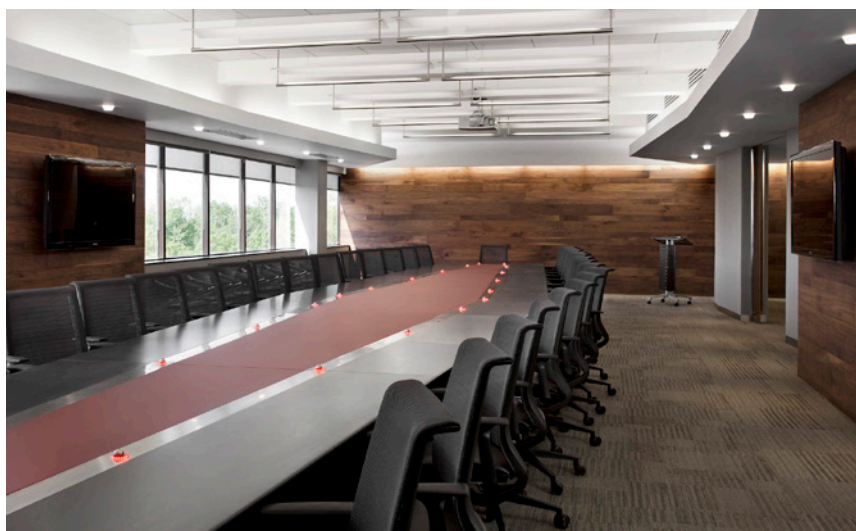

Creative Problem-Solving to Meet Your Unique Need and Budget

When an off-the-shelf solution doesn't meet your needs in fit, finish or price, a custom solution may be the answer. Our team's extensive design and planning experience enables us to help you solve difficult space planning problems. Red Thread has been designing and building custom office solutions since 1980. We offer a breadth of capabilities, from complex and sophisticated designs to value-focused functional solutions:

- Conference Tables
- Reception Desks
- Workstations
- Executive Desks
- Credenzas
- Ancillary Components

Technology Integration

- **The need:** many workspaces are not built to accommodate technology and power access.
- **The expertise:** Red Thread is uniquely qualified to design solutions that integrate cabling, conduits, data connection and power distribution.
- **The result:** a balance between functional capability and design aesthetics.

Our Process

As a single source provider of custom solutions, Red Thread supports you from concept to execution:

- **Consultative approach:** we can develop your idea into a conceptual design or execute plans provided by your architect or designer
- **Realistic 360° renderings:** visualize your finished product with your selected material and finish options
- **Project management:** from needs assessment through installation, we manage your project each step of the way
