A regional enterprise with comprehensive service offerings provides a unique and personal approach to community banking.

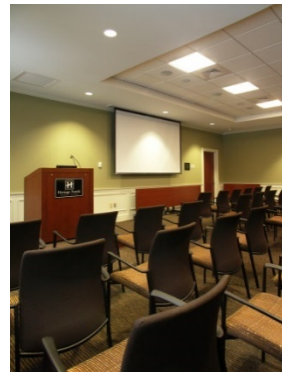

The Heritage Family Credit Union decided to consolidate their operations group and senior management teams from multiple locations in the greater Rutland area to a single location. The relocation provided an opportunity to improve organizational effectiveness by better connecting employees, refreshing the bank's traditional brand and culture and modernizing the space and technology tools. The goal was to create a high performance work environment through the implementation of an integrated interiors approach, creating seamless connections for employees and customers.

Spaces:

Operations Hub	Meeting Auditorium
Open Plan Work Areas	Café/Employee Lunch Room
Conference Rooms	Executive Offices
Computer Training Room	Boardroom
Multipurpose Training	Executive Café
	President's Conference Room

Red Thread solutions:

- Open plan workstations designed to support users and collaborative work.
- Centralized paging, sound masking and integrated music system for open plan work areas.
- Custom 24 person 18'x4' granite boardroom table with built in power, data and microphones.
- Boardroom with unified Crestron control system for local presentations, audio conferencing and voice lift for voice reinforcement.
- Multipurpose Room with web based conferencing (skype) to leverage the existing desktop pc infrastructure for video and audio conferencing with minimal investments. The Vaddio bridge integrated with a wireless microphones/ digital sound processor and HD camera for USB connectivity with PC platform.

“ After listening to our needs, concerns and budget considerations, the team at Red Thread was able to develop solutions that fit our goals. We were very pleased with the overall appearance and functionality of the components that they recommended and installed at our new operations center. ”

- Randy L. Martelle, CCE
