

## COVID-19

The COVID-19 pandemic has dramatically impacted all organizations. The content in this guide was developed prior to the pandemic, and we are working on two initiatives to help our customers and partners plan for a post COVID-19 workplace:

### 1. WORKPLACE RE-ENTRY GUIDE

This guide will serve as a road map for developing a cohesive plan for re-entry with employee trust and safety as the top priority.

### 2. INTERACTIVE WORKPLACE TRANSFORMATION TOOL

This web app will calculate project budgets and illustrate healthier work environments that protect employees by minimizing the spread of illness.

By downloading this guide, you will automatically be notified when these tools are available.

# Workplace Transformation

Flexible workspaces for evolving work styles and technology

RED THREAD

## COVID-19

The images in this guide do not reflect current social distancing requirements. Please consult the [CDC's website](#) for their most up-to-date guidelines.

# Why workplace transformation?

The kind of work we do today is radically different than the work we did even 20 years ago. The workplace has to adapt and change to meet our evolving needs.

© Steelcase Inc.

### Complex work requires different spaces.

Over the past 20 years, much of our structured and process-oriented work has been automated or outsourced. Our work today is unstructured, complex, and creative, requiring more intense periods of focus and collaboration.

### Workforce demographics are changing.

As experienced and skilled baby boomers head to retirement, organizations must appeal to younger cohorts of workers (Gen X, Gen Y and Gen Z). By 2030, it is predicted that 75% of the workforce will be Millennials (also known as Gen Y). Millennials tend to seek work/life balance, seamless technology, and inspiring workspaces. Companies may also need to seek talent from a broader geographic area, creating a virtual and distributed workforce.

### Technology continues to shape how we work.

Today's powerful mobile devices, ubiquitous internet access, and cloud-based applications make working anywhere, anytime, possible. Companies must employ strategies, such as BYOD (Bring Your Own Device), to meet the expectations of a younger and more tech-savvy workforce.

◀ Offices in the not-so-distant past consisted of an endless sea of identical cubes.

## INDUSTRIAL REVOLUTIONS

▲ We are in the midst of the 4<sup>th</sup> Industrial Revolution, marked by the internet of things, 3D printing, artificial intelligence and machine learning.

# What does workplace transformation look like?

A workplace transformation begins with alignment around your goals and exploring potential strategies to achieve those objectives.

## Sample Goals:

- Attract and retain
- Engage employees
- Create a culture of innovation
- Optimize real estate
- Build brand + culture
- Support creative thinking

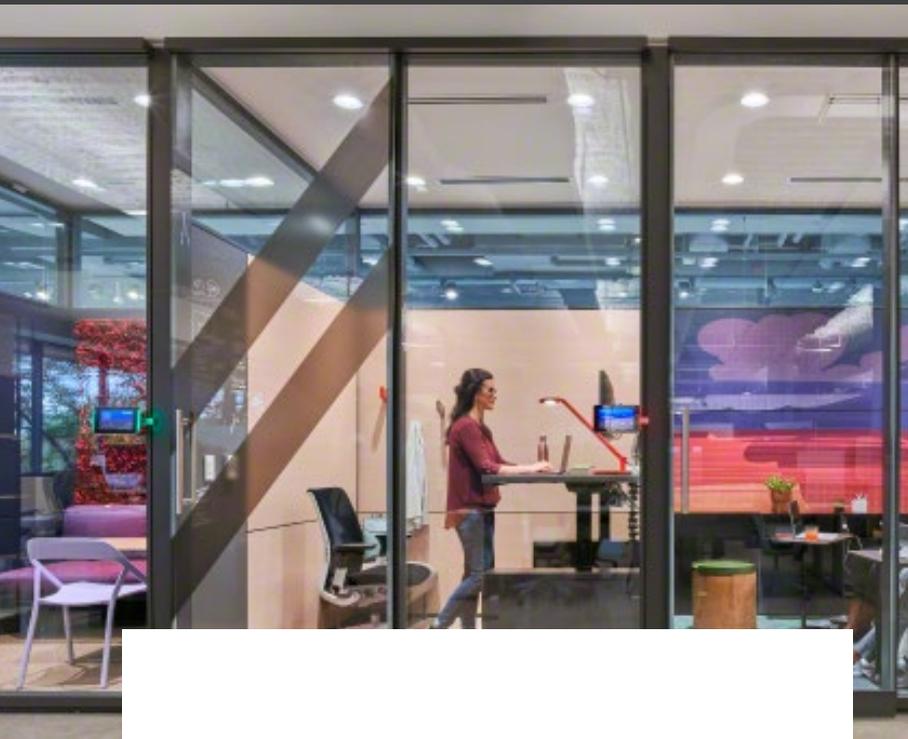

## Sample Strategies:

- Offer choice and control with an ecosystem of spaces that balance privacy and collaboration throughout the floorplan
- Support mobile workers with unassigned touchdown areas and HD videoconferencing to connect local and remote teams
- Foster creativity and collaboration with dedicated spaces and easy-to-use technology
- Enhance employee wellbeing with opportunities to change posture (sit / stand / lounge) throughout the day
- Create spaces for employees to socialize and gather
- Design inspiring spaces that represent your brand and encourage creative thinking
- Communicate organizational news through digital signage in common areas, helping everyone feel connected

Now that you have an idea of your goals and strategies, you need to examine your existing workplace culture and determine a realistic level of change for your organization. In the following pages, we explore three example corporate cultures.

© Steelcase Inc.

An integrated strategy

In order to effectively transform your workplace, leadership, HR, IT and Facilities need to come together and align their goals. Each of these departments view the workplace through a different lens, so when you're able to align these visions and goals, real innovation can happen.

### Leadership

- How do we envision the future?
- How do we make better, smarter investments in space, people and technology?
- Is our space 'smart' and sustainable?

### HR

- How do we attract and retain the best talent?
- How do we revitalize our workplace culture?
- How do we support employee wellbeing?
- What work practices or accepted norms need to change?

### IT

- How do we support collaboration and foster communication?
- How do we support mobility while maintaining security?
- How do we implement systems that are user-friendly?

### Facilities

- How do we optimize our real estate to get the greatest efficiency?
- How do we balance privacy with collaboration to meet employees' needs?
- How do we create inviting, inspiring spaces?

## Workplace Transformation

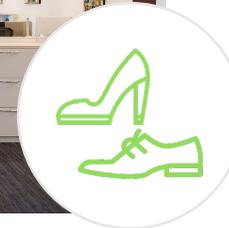

# What is your current culture?

To know where you're going, first you need to assess where you are. Your organization may not fit perfectly into one of these models - every company is unique and may have characteristics found in more than one category. These examples are a starting point to achieve your transformation goals.

© McMahon Architects

## Classic

Hierarchy-oriented; structured and controlled, with a focus on efficiency, stability and "doing things right."

© Richard Mandelkorn

## Balanced

Market-oriented; focus on teamwork, competition, achievement, and "getting the job done."

© Damianos Photography

## Progressive

Adhocracy-oriented / team-first culture; dynamic, creative and entrepreneurial, with a focus on risk-taking, innovation and "doing things first."

© McMahon Architects

# Classic

Hierarchy-oriented; structured and controlled, with a focus on efficiency, stability and “doing things right.”

## Priority

- Bottom line results, efficiency, following defined processes, customer-centric.

## Dress code

- Business professional

## Workers

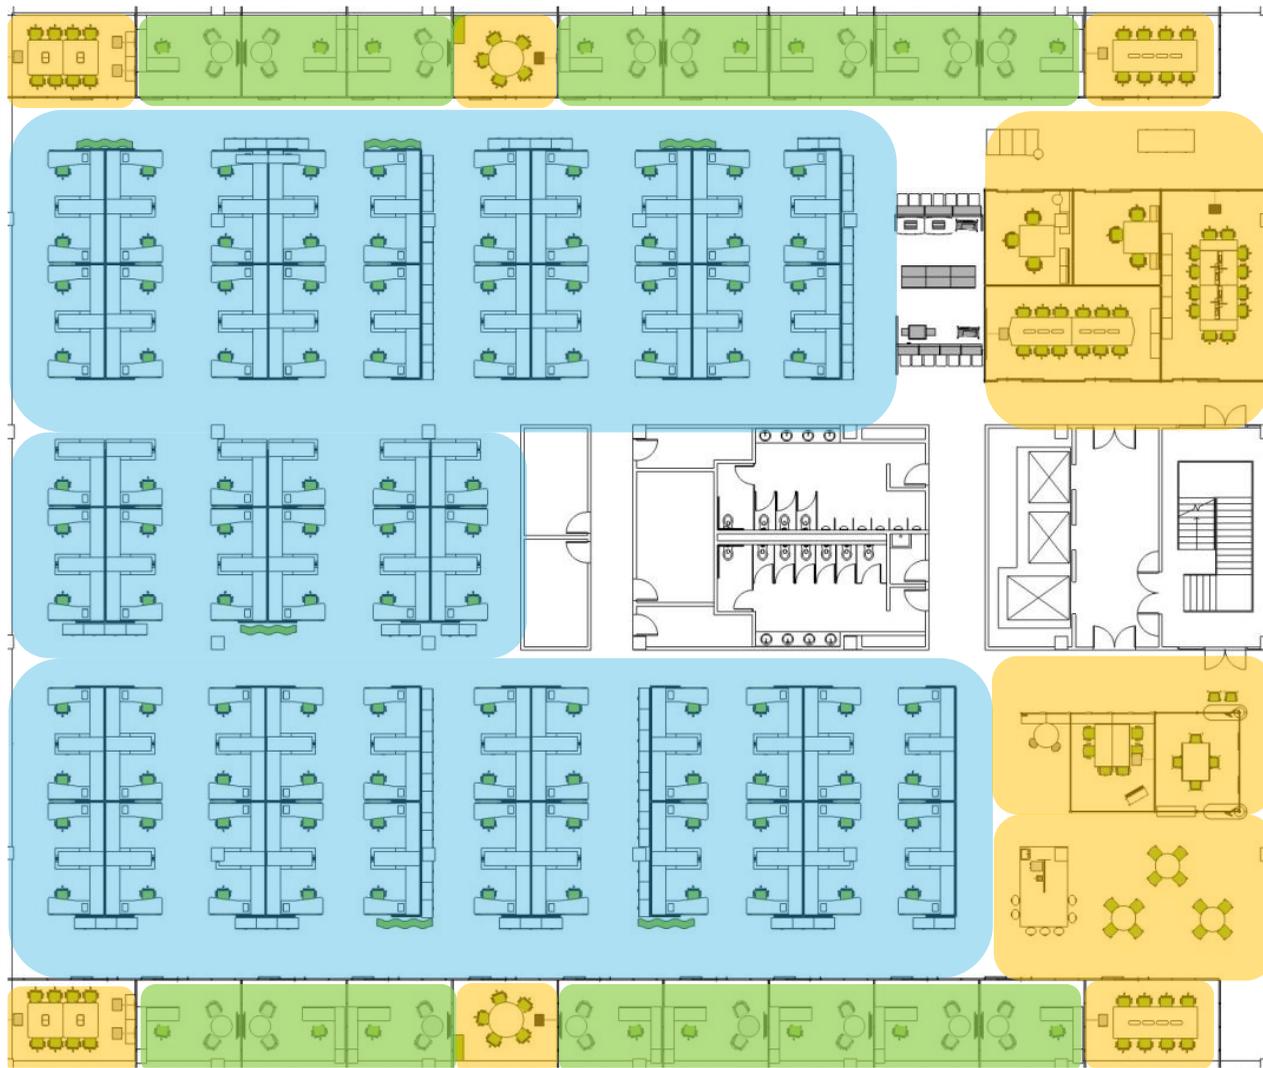

- Predominantly resident workers
- Priority on hiring for skills and experience

## Technology integration

- Desktop PCs
- Video conferencing in meeting rooms
- The basics + experimenting with newer devices/software

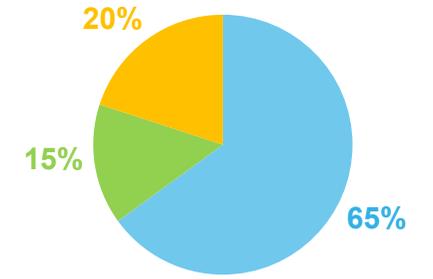

## Furniture preferences

- Higher paneled workstations for privacy
- Private offices with wood
- Traditional conference rooms

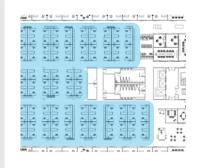

# Classic

This is what a 25,000 SF classic floor plan might look like.

- Individual spaces (102)**  
 Employees are entirely resident workers, most tethered to desktop PCs, and work in open plan workstations.
  - Resident 6X8' workstations
  
- Private spaces (16)**  
 Managers and leadership reside in private offices along the perimeter of the space.
  - Private Office
  
- Collaborative spaces (18)**  
 Employees have access to closed collaborative spaces along the perimeter that accommodate small, medium and large groups. They meet for lunch and socialize in the mid-sized dining area.

**Resident workstations** provide space for workers tethered to technology or storage to focus. 54" high panels offer privacy.

**Size:**  
48 SF (6' x 8')

**A MODERATE CHANGE**

- + markerboard
- + ergonomic task seating
- + 54" panels
- + sitting posture

**B DRAMATIC CHANGE**

- + height-adjustable desk
- + sit-to-stand postures
- + fewer panels, supports collaboration

*The settings pictured are approaches to achieve your workplace goals based on your existing culture.*

*Option A is a more measured approach, while Option B is a more dramatic change.*

# Balanced

Market-oriented; focus on teamwork, competition, achievement, and “getting the job done.”

## Priority

- Customer service, achievement, and equal focus on supporting customers and employees.

## Dress code

- Business casual / jeans on Fridays

## Workers

- Mostly resident workers, some mobile.
- Balances hiring for culture fit with skills and experience.

## Technology integration

- Laptop computers
- Local network and some cloud-based systems
- Hardwired video conferencing + web conferencing (Skype for Business)
- Some innovative collaboration tools and software (media:scape, Microsoft Surface Hub)

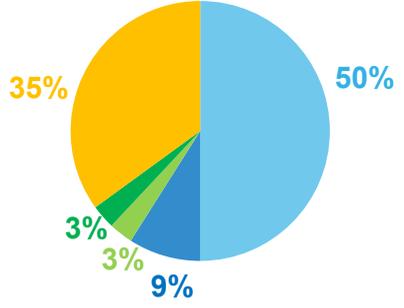

## Furniture preferences

- Open floor plan with lower paneled workstations
- Benching areas for mobile workers
- Some private offices
- Some phone booths and focus spaces
- Traditional conference rooms
- Informal meeting and lounge areas

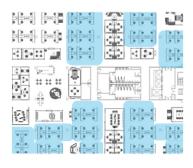

# Balanced

This is what a 25,000 SF balanced floor plan might look like.

- Individual spaces (126)**  
 Employees are mostly resident workers tethered to desktop PCs, but there is a group of nomadic workers who need space to touch down when in the office.
  - Resident 6X6' workstations (106)
  - Free Address (20)
  
- Private spaces (10)**  
 Managers and leaders occupy 50% of the private spaces in the form of private offices. The remaining 5 spaces are focus spaces reservable by any employee.
  - Shared Office (5)
  - Free Address (5)
  
- Collaborative spaces (31)**  
 Employees have access to both open and closed collaborative spaces throughout the floorplan, whether for a small informal brainstorming session or a larger formal presentation. They enjoy socializing at lunchtime in the large employee café.

**Resident workstations** provide space for workers tethered to technology and storage to focus. 48" high panels and storage provide visual privacy

**Size:**  
36 SF (6'x6')

*The settings pictured are approaches to achieve your workplace goals based on your existing culture.*

*Option A is a more measured approach, while Option B is a more dramatic change.*

**A MODERATE CHANGE**

- + Ample storage
- + Storage and panels create privacy
- + Ergonomic task seating
- + Desk posture

**FURNITURE**

c:scape desking and storage  
Gesture seating

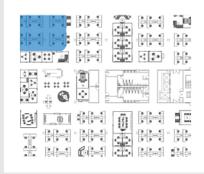

**B DRAMATIC CHANGE**

- + Height-adjustable desk
- + Sit / stand postures

**FURNITURE**

c:scape storage  
Divisio privacy screen  
Gesture seating  
Series Bench

**Free address workstations** provide space for mobile workers to touch down for the day, or part of the day.

**Size:**  
25 SF (5'x5')

**A MODERATE CHANGE**

- + Glass divider = privacy
- + Ergonomic task seating
- + Desk posture

**B DRAMATIC CHANGE**

- + Solid panels and glass plus dividers = privacy
- + Height-adjustable desk
- + Sit / stand postures
- + Dual monitor arms

*The settings pictured are approaches to achieve your workplace goals based on your existing culture.*

*Option A is a more measured approach, while Option B is a more dramatic change.*

# Progressive

Adhocracy-oriented / team-first culture; dynamic, creative and entrepreneurial, with a focus on risk-taking, innovation and “doing things first.”

## Priority

- Employee happiness, innovation

## Dress code

- Casual / jeans everyday

## Workers

- Predominantly mobile workers (local, remote or global)
- Hire for culture fit first, skills and experience second
- Creative class embracing a mobility strategy of flexible work in unassigned individual and shared spaces

## Technology integration

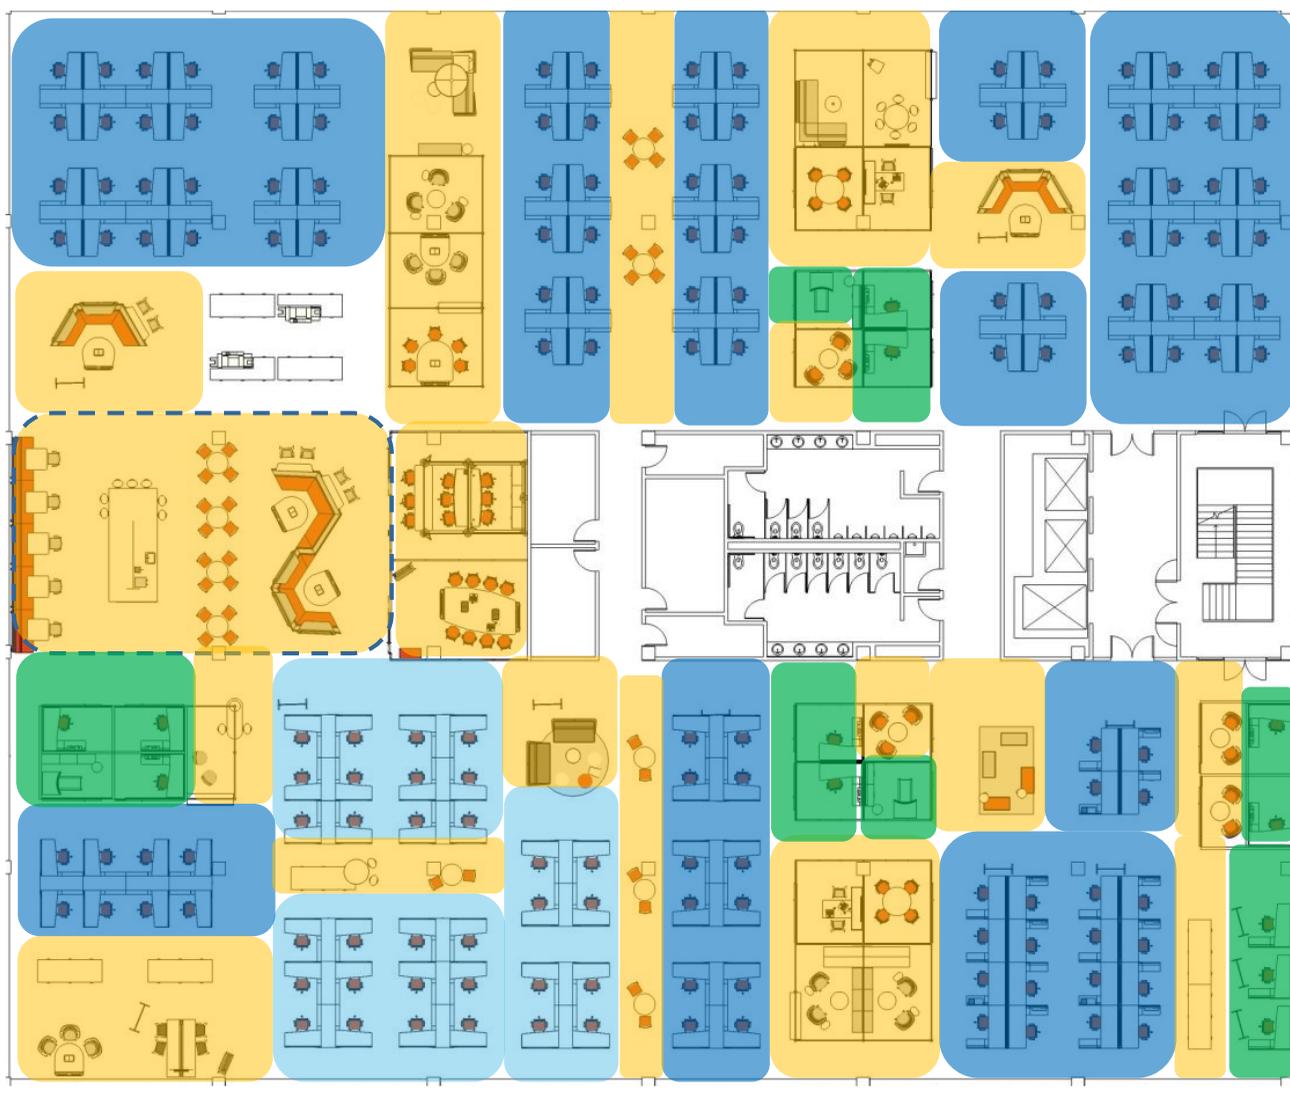

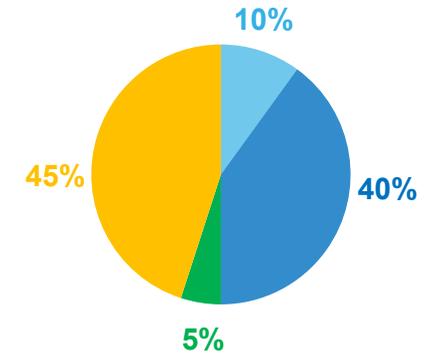

- Laptop computers, tablets
- Cloud-based systems (Office 365)
- Web conferencing (Skype for Business)
- Innovative collaboration tools and software (media:scape, Microsoft Surface Hub)
- Fully immersed with integrated systems throughout the space

## Furniture preferences

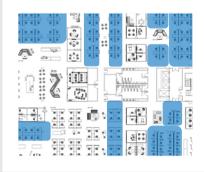

- Touchdown spaces for mobile workers
- Shared private quiet spaces and phone booths
- High-performance meeting spaces with collaborative technology

# Progressive

This is what a 25,000 SF progressive floor plan might look like.

- Individual spaces (152)**  
Employees are mostly mobile workers, so 120 free address workstations support them touching down within the space. There is a small group of resident workers with assigned desks (32).
- Resident 5X5' workstations (32)**  
Free Address (120)
- Private spaces (15)**  
All private spaces are free address, reservable by any employee. These areas include rooms for focused work, respite, and private phone calls.
- Free Address (15)**
- Collaborative spaces (44)**  
Employees have access to open, shielded and closed collaborative spaces throughout the floorplan. Informal collaboration and connections are encouraged. Employees enjoy working, socializing and gathering in the buzz of the work café, where they can access refreshments and charge their devices.

**Free address workstations** provide space for mobile workers to touch down for part of the day in between meetings and time in more private spaces.

**Size:**  
25 – 135 SF

*The settings pictured are approaches to achieve your workplace goals based on your existing culture.*

*Option A is a more measured approach, while Option B is a more dramatic change.*
