# Hosted VoiceClock

Features

- Restrict access though approved phone numbers

- Easy clock in and out for the day when traveling or working off-premises

- Easy clock in and out for lunches and transferring between departments

- Enter custom labor data through voice prompts

- Use any touch-tone telephone (standard or cellular)

- No equipment to purchase or install

- Provides accurate, reliable data on the go

- Employees are accountable from anywhere

- Caller ID restriction

- Avoid bottlenecks with the multi-line capabilities

- Optionally, configure a private phone number (additional charges apply)

- No purchase of additional phone lines necessary

Solution

Ideal for employees who travel or work offsite.

Dial up, Clock in

Keep your employees on the clock by leveraging the most ubiquitous data collection device on the planet — the telephone.
