

How To Add a Truck When Using DashLink ELD

Getting up and running with DashLink ELD is easy! Here's what you need to do to add your first truck:

- 1 LOG INTO THE BIGROAD WEB APP AS A SAFETY MANAGER**
 - Once you are in, click the **Fleet** tab on the top right side of the screen
 - Select **Trucks** from the toolbar on the left
 - Click **"Add Truck"**
- 2 FILL OUT THE FORM WITH YOUR TRUCK, LICENSE PLATE, AND VIN NUMBER**
 - Your truck number has a maximum of 10 characters, with no spaces or commas
 - Your **VIN** number should be 17 characters long
- 3 UNDER YOUR TRUCK INFORMATION, SELECT "ELD"**

Note: Once you have selected **ELD** you cannot revert back to **AOBRD** or **eLogs**
- 4 SELECT YOUR PAIRING OPTIONS**
 - You can select **VIN** or **Device ID**
 - If you select **Device ID**, this is where you will be required to enter your **DashLink ID** number
- 5 CLICK "ADD TRUCK"**
 - When using DashLink as an **ELD**, the Unidentified Driving feature will automatically be enabled

Your first ELD truck has been successfully added and you are ready to run in compliance!
