

Fleet Complete for General Motors

Fleet Complete is a web-based fleet management solution that runs on a variety of light and heavy-duty vehicles, including OnStar™ equipped Chevrolet, Buick, GMC and Cadillac. With the immediate on-boarding program and easy activation, there are no hardware costs or device installation required.

Fleet Complete Platform Benefits

- Integrates with a variety of vehicles and allows you to monitor the location and health of their vehicles without additional hardware
- Leverages a GPS tracking device that monitors driver behavior and enables you to manage risky driving
- Delivers fleet operations insights to help improve vehicle life, reduce unauthorized vehicle use and better manage inventory costs
- Provides tools to optimize routing, improve fleet utilization and increase driver productivity
- Improves driver coaching and fleet safety with video telematics and Advanced Driver-Assisted Systems (ADAS)
- Helps manage task dispatching and communications with workforce in the field from one screen
- Helps reduce fuel consumption and other business costs through optimization of resources and operations
- Provides fleet dashboards and on-demand reports to help simplify IFTA reporting
