

## MAINTENANCE MODULE AND REPORTS

Fleet Complete's Maintenance Module allows fleet managers to schedule and set reminders for regular vehicle service based on running odometer, or operating hours.

Fleet Complete system offers 7 reports specific to the GM's OnStar integration, such as Activity, Distance Traveled, Idling, Point of Interest, Stops and Trip reports.

Status	Asset	Service	Current Odometer (mi)	Current Engine Hours (hrs)	Distance (mi)	Engine Hours (hrs)	Next Mile(s)	Action
Upcoming	Tony -J11	Brake Check	36	0	Due in 3000	-	Due in 41	
Upcoming	ANK Q70	Safety Inspection	34202	0	Due in 124	-	-	
Upcoming	Tony -MS580	Safety Inspection	0	0	Due in 124	-	-	
Upcoming	Jerry's Brother - MS580	Oil Service	0	0	Due in 3107	-	Due in 260	
Upcoming	Dave's Awesome Cool Truck	Oil Service	0	0	Due in 3107	-	Due in 260	
Upcoming	Tony -MS580	Oil Service	0	0	Due in 3107	-	Due in 260

## FIRST RESPONDER SOLUTIONS

Together with General Motors, Fleet Complete is a mission-critical solution of choice for many first responder fleets.

- Near real-time vehicle location reporting
- Siren, alarm and auxiliary equipment usage reports
- Proof of action and time of arrival on scene reporting
- Integrated personal emergency tracking
- Integrated mobile Wi-Fi solutions via Cradlepoint

## BUSINESS INTELLIGENCE AND CRITICAL INSIGHT INTO YOUR FLEET

Tackle the most common fleet challenges:

Driver behavior reports

Monitor speeding, idling, harsh braking and hard cornering

Streamlined maintenance

Perform DVIRs, log defects and schedule regular maintenance

One platform

Manage your vehicles, assets and workers from one screen

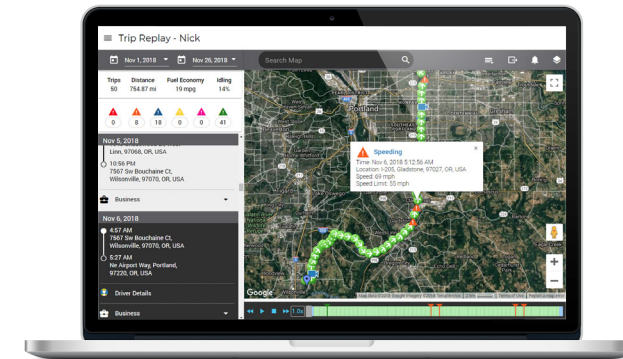

Compatible with add-ons

Manage ELD compliance, dispatching and more with the same platform

## FLEET COMPLETE GENERAL MOTORS ONSTAR INTEGRATION

Fleet Complete for GM is a web-based fleet management solution that runs on a variety of OnStar-equipped GM vehicles (Chevrolet, Buick, GMC and Cadillac).

With GM's 4G LTE WiFi hotspot and OnStar connectivity, you can view your fleet's performance in near-real time, remotely manage staff and asset safety, and get customized report analysis, as detailed or top-level as you need.

Trip Replay displaying instances of driving violations, such as speeding, hard cornering, idling and more.
