# / HELLO. WE'RE EO CHARGING.

Designed and manufactured in the UK, at EO Charging we build smart energy technologies. Electric Vehicle charging stations designed for homes, workplaces and destinations. Plus eoHUB, our revolutionary smart energy device - which puts up to 30 chargers online, unlocking EO's software capabilities and in the near future - solar, battery storage, smart-grid and smart-home integration.

# / SIMPLE & EASY-TO-USE HOME CHARGING

At EO we like to keep it simple. We have two products both designed for charging up at home.

The eoMini is the UK's smallest and most discrete fast charger. With no software, the eoMini is a super cost-effective charging solution for no nonsense charging. Then we have our Genius charger, which when connected to an eoHUB becomes super smart. Monitor your energy usage via eoCloud and control your charger from your smartphone.

# / OUR VISION FOR THE FUTURE

We are excited about where the world is heading. We plan to always stay at the forefront of technology

## INTELLIGENT ENERGY

Aside from being our secret weapon when it comes to cost-effective smart charging, eoHUB is getting smarter. In the near future it will integrate with the smart-grid, solar PV and battery storage; enabling home users to take advantage of EO technology around the home.

eoHUB is a mini-computer. It can receive new software features over-the-air

# / OUR PRODUCTS

Here at EO we like to keep things simple. We essentially have two products, with a number of different options.

1.

2.

## 1. EO GENIUS

The Genius is our future proof, smart-ready charging station. When connected to eoHUB, EO's software platform (eoCloud) and smartphone app (eoApp) are unlocked. eoHUB is a smart-energy device which can put up to 30 Genius chargers online and in real-time, manage the electricity supply.

## 2. EO MINI

The eoMini is a small and discrete fast-charger which can give your car approx. 30 miles charge per hour. It's a no-nonsense, cost-effective solution.

### FEATURES

- 4 power ratings – 3.6kW / 7.2kW / 11kW / 22kW
- 3 plug types – Type 1 Tethered / Type 2 Tethered / Universal Socket
- 3 year product warranty
- Qualifies for OLEV Electric Vehicle Home Charge Scheme (£500 grant)

# / EO HUB

A mini-computer that gets better with age

eoHUB is a little internet connected box that plugs into a Genius charger and puts it online. One eoHUB can connect up to 30 Genius chargers, making installing multiple smart chargers super cost effective. eoHUB allows you to control your Genius chargers via eoCloud and eoAPP.

- For maximum safety eoHUB monitors a building's power supply and actively manages the load on multiple chargers.
- Coming Soon – Solar PV, Battery Storage and Smart-Grid Integration
- Hard-wire internet connection only for reliability and low-cost ongoing fees

# / EO ACCESSORIES

A few essential EV accessories

## STAINLESS STEEL FLOOR MOUNTED CHARGING POST

Have your EO Charger(s) mounted on our Stainless Steel Post. You can have one charger on its own or two chargers mounted back-to-back.

## TYPE 1 & TYPE 2 SOCKET CABLES

Designed to charge your electric car or electric motorbike from home, work and public charge points.

- Dust proof and waterproof to IP54 rating (when mated)
- Compatible with 16A and 32A public and home charge points
- Type 2 (IEC 62196-2) to Type 1 (SAE J1772)
- 24 month warranty against manufacturing defects
- Security locking hole

# / EO SOFTWARE

Manage your EO charging stations online

## EO SMARTPHONE APP

Control your charger from anywhere in the world. Start, stop and pay-for-charge – all from the palm of your hand.

- Navigate to your nearest available EO
- Pay for charging on-the-go
- View your charging history
- Charge session notifications

## EO CLOUD

- Monitor your energy usage
- Link to your work account for your employer's benefit
- Track your usage on-the-go
- Make your charger publicly available and generate revenue

## / OUR STORY

Having previously worked at another UK charge point manufacturer, Charlie was frustrated at the state of the UK's charging infrastructure. So one day back in 2014 he decided enough was enough and quit his job to start EO Charging. The plan was simple – build superior charging equipment, backed up with unbelievable customer service.

You'll see that our vision has evolved a lot since then, however our ethos hasn't changed. EO is a family run business and our factory is still on 'the farm' (Charlie's Grandad's farm). At EO we look after each other like we do our partners and customers. In a fast moving, high-tech world – we keep things simple. We call it Invisible Tech.

EO stands for electricity online and it's our mission to help people become energy independent. Electric car charging is one piece of the jigsaw puzzle.

– Charlie Jardine, EO Founder
