Gunnebo SafeDeposit D2s

Compact, secure cash processing

GUNNEBO®

Keep your cash safe and smart, while making your store a safer place to work.

D-family is designed as an entry level in secure cash deposit for small retailers with two collection method options - Cassette or Bag.

The D2s stacks banknotes in a plastic bag. Versatile to match each installation condition with a simple yet powerful user interface. D-family fulfills the user and the owner needs to carry out quick cash deposit transactions and complete cash management.

D-family leans on Gunnebo's know how as a global supplier of security and cash management solutions. Banknote collection in cassette or bag, real-time data transfer, multiple clouds communications, remote management and upgrades, banknotes stacked in a bag and some of the features available within the

D range. All D series run with our **EMA Software Platform** (Easy Modular Assisted Software).

Retail Solution With CIT Features

- Stacked banknotes in bag
- Real time accountancy of each transaction
- Web remote management and administration (including banknote validator upgrades)
- Multicurrency in the same transaction
