Bringing high speed and maximum capacity
in one cash deposit unit

GUNNEBO[®]

Gunnebo SafeDeposit D6 family

Bringing high speed and maximum capacity in one cash deposit unit

The high-speed range has been designed to adapt to the pace of big companies and provide greater performance and flexibility in all cash deposit transactions.

Today's economy has driven consumers to use less credit and more cash, growing the amount of paper transactions worldwide. Manually managing the flow of currency into business, represents a high cost-low return task, which also carries significant security risks. Automation offers significant potential for increasing productivity of the entire process.

Retail solutions with CIT features

- For businesses dealing with many customers, employees and suppliers every day, the D6 is your best option.
- The capacity and speed of the deposit unit allow you to streamline cash flow, cut on time-

consuming operations and ensure a secure environment for your customers and employees.

- Stacked banknotes in bag.
- Multicurrency in the same transaction.
- Multilanguage.
- Gunnebo One Time Code system to open the safe.
- Visual and tactile interface via colour touch screen.
- Real time accountancy of each transaction.
- With the D6 unit you can also benefit from a range of additional options, depending on your individual needs, the escrow functionality which enables the notes to be recovered after counting in case a user disagrees with the amount reported by the machine.
- Also available is installation through the wall to allow the opening of the safe from the rear side of the machine and note stacker with up to 3,000 notes stacked.
