

Adapt IT Vacancy

Account Manager

Location: Johannesburg

Business Unit: Public Sector

Role Description:

The Account Manager is responsible for selling solutions to existing and new clients within the marketplace. The incumbent is responsible for the management and development of accounts, to maximize turnover and profit, the achievement of personal targets and contributing to overall profitability, success and positive image of the company in the marketplace.

Role Requirements:

Consistently achieve accepted sales targets by doing the following:

- Keep up to date on developments, trends and competitive threats within the assigned territory of the Group
- Generate leads in the assigned territory by prospecting at management and operational level with target customers and through liaising with partners and suppliers
- Ensure sufficient personal activity is maintained in terms of prospect facing meetings, general prospecting and cold calls. Regularly meet with prospects to understand their businesses, and generate demand for solutions and related services
- Produce compelling value propositions for proposals with the Support Office team
- Effectively manage the sales cycle in terms of the defined sales process
- Successfully negotiate contracts
- Assist the technical team in the delivery of solutions

Perform sales activity administration

- Prepare key account plans
- Provide market intelligence information
- Report on prospective business and sales pipeline activity

Ensure customers are satisfied

- Be positively rated in terms of customer satisfaction metrics
- Manage customer perceptions of the business

Ensure quality standards are maintained

- Adhere to the standards set for territory account management and reporting

- Forecast accurately for executive management review
- Ensure quality delivery in performing standard sales tasks
- Maintain the agreed personal development plan
