

About Us

Bravium Consulting Inc. is a Maryland based consulting firm that was established in 2010 and is focused on being a full service program management, strategy, architecture, delivery, operations and resale partner. As a strategy and architecture partner, we can support the vision and design of IT to Business alignment.

Our team can program manage, implement, and operate applications and systems. Our core strength is our ability to support your team in a value-added, team player manner by leveraging our strong industry experience and proven point of view. We are an SBA Certified 8(a), Woman Owned Small Business 8(m), and EDWOSB.

"Raising the bar, not your budget"

bravium (Latin), Noun

1. prize, reward

Enterprise Service Management

Implementing Value-Added Business Services and Lowering Overall Cost to Serve With **ServiceNow**

Value Proposition

Our team is comprised of strong professionals with decades of experience in IT Strategy, IT Service Management, Enterprise Architecture, PMO and Solution Delivery.

Our value proposition is simple...

We bring seasoned, dynamic people with an intense focus on delivery excellence.

- **Seasoned Veterans:** Our people have successfully supported large government agencies and fortune 100 companies transform business processes, applications, and infrastructure to lower costs, improve efficiency, and deliver new capabilities to their organization.
- **Dynamic Performers:** We have built a team of people who raise the bar and have a point of view more broadly than the task at hand.
- **Contract Performance:** We focus on delivery excellence and strive to deliver high quality services and maximize value to our clients.
- **Diversity:** Our SBA Certified 8(a), WOSB 8(m), & EDWOSB status supports a variety of contract metrics and diversity goals.

Core Capabilities

Bravium's core business and technology capabilities include:

- **Enterprise Service Management:** We have a team of veteran architects, developers, and implementation specialists who have deep experience across all disciplines of the ServiceNow platform.
- **Infrastructure and Application Strategy:** Bravium has supported the strategic planning, transformation, and delivery of multiple complex infrastructure and application programs.
- **Enterprise and Cloud Architecture:** Our team has supported multiple clients in developing a vision and roadmap and bringing reality to their to-be state.
- **Program/Project Management:** Bravium delivers a broad range of program and project management services that increase performance, while still delivering within cost and schedule. Our team of experts use best practices and professional experience to deliver projects more efficiently.

Why We Do This

Bravium has found that many organizations are ready for business process maturity and automation, but are not equipped with the right solution. Bravium focuses on helping these organizations by leveraging the power of ServiceNow to:

- Deliver meaningful technology solutions to solve complex business challenges
- Increase the value delivered to their internal and external customers
- Realize significant cost savings, quality improvements, and process efficiencies
- Maximize the return on their Enterprise Service Management (ESM) investment
