A long-term care professional and chartered life underwriter with more than 30 years' experience in the insurance/finance industry, Ellen Woods has specialized in planning for the age 50-and-older population for more than 20 years. With a level of expertise evidenced by professional designations including Chartered Life Underwriter (CLU), Long-Term Care Professional (LTCP) and Retirement Income Certified Professional (RICP), she works with clients to design customized asset-protection plans that protect them from the high cost of a potential long-term care claim.

Also certified by the Department of Veterans Affairs as an accredited Claims Agent, Ellen helps veterans in the process of applying for the Veterans Administration's Aid & Attendance Pension, which is available to wartime veterans and their spouses when they are in need of long-term care.

Ellen also works with Life Care Funding, a company offering an innovative option for funding long-term care through existing life insurance policies.

An experienced public speaker, Ellen provides workshops on long-term care insurance and asset protection throughout Southeastern Massachusetts and Rhode Island.

Active in her community, Ellen is a former advisor to the Big Brothers Big Sisters of the Ocean State on the topic of charitable giving. She is also founder and President of the nonprofit Camp Ellie Mae, and a past board member and President of the Bristol County Estate Planning Council. A vocal artist, guitarist and avid golfer, she is married, the mother of three daughters and recent grandma to Preston Madeline.
