

CyberGrants Disbursement Solutions

Connecting the World's Givers to Those Who Can Benefit from them the Most

Learn How Everyone Benefits

Donors

Nonprofits

Corporations

Continued changes in regulations related to disbursements have driven an evolution of the distribution alternatives offered to our clients. These regulations have increased the markets focus on issues of risk and liability.

Do you want to:

- Increase efficiency in administration of gifts?
- Aggregate payments for simpler management?
- Simplify your tax receipt process?
- Find a partner focused on changing risks?
- Secure money transfer practices?

Our banking partners are increasingly focused on managing the changing risks associated with financial crimes and we are all determined to strengthen our Anti-Money Laundering (AML), Economic Sanctions and Customer Due Diligence (CDD) program requirements.

Plus any enhanced measures are intended to comply with evolving Know Your Customer (KYC) guidelines and new regulations issued by the U.S. Treasury Department's Financial Crimes Enforcement Network (FinCEN) and ensure sound money transfer practices.

CyberGrants Fiscal Management & Disbursement Models are Built on Security, Efficiency, and Compliance to Fit the Needs of Your Philanthropy Programs, Today and Tomorrow.

Through third-party partnerships, CyberGrants Disbursement Solutions provides advantages to all who touch the giving process.

Advantages for Donors

- **Full and instant tax deductibility at the time of donation or deduction*** – Receive tax efficiency at the time of donation or deduction when donating to an eligible 501c3 organization. *When applicable.
- **Single and unified tax receipt** – Stop chasing down nonprofits for receipts and eliminate the need to follow up that your donation was distributed. With CGDS, you have access to complete history of your donations within one system.
- **Wide-range of causes to support** – Through CGDS, donors can support the causes they care about most and choose from millions of nonprofit organizations working in their communities and around the world.
- **Quicker and more efficient payments to NPOs** – Using aggregated disbursements, CGDS delivers donations to nonprofit organizations more quickly and effectively than ever before.
- **Financial Oversight** – CGDS provides end-to-end visibility between donation and fulfillment for a totally transparent and seamless giving process.

Advantages for Nonprofit Organizations

- **Consolidation of payments** – Nonprofits traditionally prefer their payments aggregated, which provides efficiency and lowers their banking costs, putting more money in their pockets overall.
- **Reduced administration costs** – Providing tax receipts to donors uses precious nonprofit time and money that can be completely eliminated for eligible donations.
- **Less time fundraising, more time impacting** – By reducing the administration required to deposit funds and provide tax receipts, organizations can spend more time living their mission and less time worrying about how to do so.
- **Economy of scale** – The reduction of administration costs coupled with the overall scale that this model can offer in regards to the costs of running a corporate employee program, ensures that NPOs are prepared for your program's growth and greater success.
- **Visibility to gifting corporations and donors** – Providing visibility to who is supporting them is key to a nonprofit organization's ability to gain the best possible view of how effective they are attracting supporters.

Advantages for Corporations

- **A full range of services** – Our comprehensive service includes charitable vetting, anti-terror and – fraud watchlist screening, customer support, and distribution, all in one, easily budgetable platform.
- **Ability to offer one-stop shopping for your employees with full tax efficiency for eligible organizations** – The flexibility of this model provides companies and users with a truly comprehensive set of options and features that helps them better meet their CSR goals and provide a flawless experience for their employees.
- **Protection** – The third-party aspect of this model gives your company world-class protection from Anti-Money Laundering and Anti-terror funding regulations. This mitigates your liability as CyberGrants and its partners becomes the ultimate transmitter of donated funds to recipient organizations and to protect the funds we steward CyberGrants has built a screening and monitoring process that is second to none.
- **Growing your program without growing your cost** – Our fixed fee structure eliminates the variability in the cost of running your program. This way you can concentrate on making your program as successful as possible without worrying about your budget.
- **Transparency without attribution** – Working with CyberGrants will provide you full end-to-end transparency of your funds while offsetting your liability. As the steward of your matching and employee donated funds, our services offer your gifts full protection against bankruptcy or any other issues that could interfere with their delivery to their intended recipient organizations. Through the protection of our middle-layer you can rest easy knowing that your funds are secure against any disruption.
- **Ability to add new NPOs quickly and safely** – Working with CyberGrants makes it faster and easier to vet and add new NPOs to your program versus many common client-led practices and systems, ultimately increasing your choice, while decreasing your liability.
