DELIVERING BUSINESS VALUE

UNDERSTAND

What Microsoft Teams and the wider Microsoft Office 365 suite has to offer.

IDENTIFY

The specific areas where Microsoft Teams can add value in your organisation.

ADDRESS

Cultural and operational barriers to ensure smooth and swift adoption.

SIMPLIFY

Enterprise wide deployment using a best practice approach.

INCREASE

Performance and team collaboration with the adoption of a single hub for teamwork.

SPEED

To value with a user centric approach.

ACCELERATING SPEED TO VALUE

Designed for organisations that recognise and want to embrace the true value of collaboration, Teams Accelerator services bring people, process and technology together to make it happen. This proven approach - evaluating individual user, team and enterprise communications & collaboration needs against strategic business goals - addresses the under-utilisation of applications within the Office 365 toolkit and provides the platform for the enterprise wide adoption of Microsoft Teams.

KEY SERVICES INCLUDED

Teams Accelerator Discovery Workshop. A great starting point to provide clear and pragmatic insights into the business value of, and operational considerations for, a successful Microsoft Teams deployment.

Teams Accelerator Envisioning Workshop. A consulting led engagement to envision how Microsoft Teams will fit within your organisation, uncover high value use cases and provide an actionable plan for the technical deployment and enablement best practices.

Teams Accelerator Pilot. A fully-managed pilot programme for up to three use cases to show business value and provide an opportunity to test and evaluate the adoption, governance and management elements required for an enterprise wide roll out.

Teams Accelerator Success Service. An ongoing managed service that grows with your business, providing insights and analysis on adoption and usage, automated bots for driving adoption and avoiding sprawl, as well as monthly reviews on usage to measure success and identify continuous improvement initiative. Also have optional add-ons for user help services, change management support and diagnostics.
