CP Command Panel HMI Housing with Handle Strips

Elegant design with high functionality

This new and improved HMI Housing features:

- Modern, attractive design
- Compatibility with Rittal system internal mounting accessories
- Ease of assembly to CP 60/120/180 support arm system

Rittal's new HMI housing with Handle Strips offers:

- Attractive design compatible with the new CP 60/120/180 support arm system
- Rear or front access versions for easy servicing
- Easy to remove and machine aluminum front panel
- 10 sizes available off-the-shelf
- Protection category IP55/CSA NEMA12
- Double bit insert cam lock with integral door runners
- Uniform interior installation via Rittal system accessories
- 5" (130mm) diameter cutout enables one person assembly with CP 60/120/180 support arm systems and pedestal stands
- Both top or bottom installations are possible based on enclosure orientation
- Attractive and functional built in handles

This new updated HMI Housing design replaces the former platforms:

- Command Panel housing with door
- Command Panel based on AE with handle strips
- Operator housing with display panel front

Part Number	Description	Height	Width	Depth	Servicing Access
