

SPRAY BUDDY SPECIFICATIONS

	GENERAL SPECIFICATIONS	PATCH PUMP*	SPRAY BUDDY**
POWER	1 hp electric inverter drive	Std	Std
SPEED CONTROL	Dial-a-Speed electronic speed control	Std	Std
PUMP OUTPUT	Variable	0-2.6 gpm or 8 bags/hr	0-1.75 gpm
PUMP SIZE	Optimized 2L3 rotor & stator	Std	Std
PUMP HOPPER CAPACITY	15 gal or 2/3 bags†	Std	Std
PUMP CHARGE HEIGHT	32 in	Std	Std
PRESSURE OUTPUT	250 psi max recommended working pressure	Std	Std
DIRECTIONAL CONTROL	Forward and reverse	Std	Std
REMOTE CONTROL	2-wire remote can be extended up to 500 ft	2 wire 60 ft (18 m) lg	AFS Auto Reverse
OPT.			2 wire 60 ft (18 m) lg
WIDTH	26 in		
HEIGHT	41 in		
LENGTH	54 in		
WEIGHT	285 lbs with air compressor; 190 lbs without air compressor		
POWER REQUIREMENT	60 HZ 110 V 15 A one phase		
WHEELS	12 in dia semi solid		
DRIVE	Direct drive lube for life gearbox		
PUMP OUTLET	1 in camlock standard		
MAX AGGREGATE SIZE***	1/8 in		
MAX PUMPING DISTANCE****		100 ft	150 ft

† 1 bag = 3.0 cu ft yield
*Patch Pump model recommended for use with products that pump more easily and a higher output is desired. Low-density fireproofing and self-leveling underlayments would be good choices.
**Spray Buddy model recommended for use with hard-to-pump products or extreme pumping distances or heights. It also utilizes AFS Auto Reverse system that reduces nozzle packs significantly with sandy and aggregated materials. EIFS and waterproofing coatings would fit this category.
***This is maximum aggregate size recommended for pump. Mix design will determine how well product will pump.
****Pumping distance may be increased or decreased significantly depending on mix design, but we believe these to be very achievable in most instances.

SPRAY BUDDY™

APPLICATIONS

- Low/Medium/High-Density Fireproofing
- Waterproofing
- Plaster/Stucco Spraying
- Injection Work
- Manhole Restoration
- Concrete Repair Mortar
- Cellular Concrete
- Bridge Repair
- Self-Leveling Floor Underlayment
- Slab Jacking
- Cementitious Coatings Under 1/8 inch Aggregate

Speeding Up The Industry
One Pump At A Time

SPRAY BUDDY™

Rugged. Efficient.

BENEFITS

Look What Our Customers Say ...

MADE IN AMERICA

All metal fabrication and engineering is done in our Indiana facility

HEAVY DUTY

Made from durable materials/Built tough for years of reliable field use

LONG LIFE SPAN

Double-life stator tube outlasts the competition

FIELD SERVICEABLE

Fast, easy repair on the jobsite with no special tools needed

HIGHLY DEPENDABLE

Vertical drive contains no pump seals to maintain

EASY TO CLEAN

Unique tapered hopper design has flat sides for easy scrape down and near zero waste on cleanout

- No daily maintenance other than cleaning
- Easy-access controls offer standard toggle switches for easy field repair, unlike competitors' expensive membrane and touch panels
- Controls similar to those of the 30E machine make it easier to train staff on equipment
- Easy to understand and operate controls
- Operates on a 5k watt generator
- Only four field-replaceable wear components to keep the unit running
- Operates on 15A 110V GFCI circuit for easy connection without nuisance trips
- Totally sealed control box keeps electronics safe from water and dust
- Very portable – easily fits into a short bed pickup truck
- Large semi-pneumatic wheels offer improved mobility on the job site
- Large inventory of parts! Orders placed by noon will be shipped out the same day

"The Hy-Flex Spray Buddy simplified our waterproofing application and increased our profitability. We went from applying concrete waterproofing by means of Spray-Hoppers — which often required a lot of ladder work — to more robust, powerful spray equipment. We also received follow-up calls to make sure we were satisfied with our purchase. I'd say without question that the Hy-Flex Spray Buddy was money well spent, and our guys thank us for it."

Raymond J. Anger
Texas Curb Cut
Purchasing/IT Support

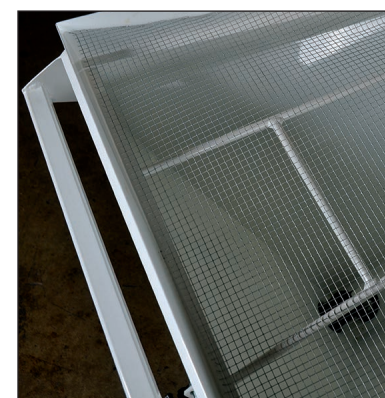

"The Spray Buddy has allowed us to be more efficient in tight spaces, more productive in limited logistics and more creative with patch jobs and repairs. This is an excellent tool for our industry. It's extremely easy to use, and I highly recommend it."

John Ford
President
Ford Drywall & Stucco, Inc.

Portable & Powerful. Period.

Hopper screen with bucket rest and closeable lid

Removable steel cover protects optional air compressor from damage

Simple, easy-to-use controls

Clamp on and adjustable stator tube design for fast cleaning and long life
