

Subject: Access to European HR relief programs (Corona)

Hello,

European Countries have developed stimulus packages to compensate companies in order to reduce short term impact and keep the economy going long term. Human Resources plays a key role in these processes. For companies with employees overseas, it must feel nearly impossible to keep track of the different government aids per country.

The last two days our HR team reviewed the relief programs European - wide. We decided not only to share this with our clients but also with all companies that have European employees. We find it important that everyone has access to these programs so we can work together and keep the economy going.

Please use this information we made available here <https://info.eurodev.com/corona-virus-manage-staff> and share it with people who can benefit from this right now.

EuroDev is your knowledge partner and here to help you through these unprecedented times. Let me know if you think there are updates or information which can be improved, or if we can help you with the execution, give us a call.

Stay healthy, stay connected!

Best regards,

Darcie Hudson
