

Secure Printing for Mobile Executives

Confidentiality for mobile executives

Situation

A large energy company serves customers nation-wide and consequently has multiple offices with a constant stream of executives and other employees travelling to the various offices. Employees need to securely print documents no matter where they are, often with documents finalized at the last minute. The company also needs to comply with governmental regulations related to secure documents.

Solution

YSoft SafeQ enterprise print management allows for pull printing from any MFP in the print environment and increases document security by requiring authentication for print/scan and copy functions.

Getting Started

- Assess print environment situation and workflow challenges
- Complete a solutions review of the requirements to solve the authentication and pull printing requirement
- Offer a proof of concept to test the solution in the customer's environment
- Choose technology and implementation options.
- Decide how you prefer to monetize and implement the solution.

Technology Required

- Xerox **ConnectKey** MFP
- YSoft SafeQ** minimal modules needed:
 - YSoft SafeQ** Authentication module
 - YSoft SafeQ** Print Roaming module

Customer Benefits

Print securely at any device in the infrastructure
Secure documents from unauthorized access
Eliminate the need to carry hard copy documents
