Storing Documents with Ease

## Simplifying CRM archiving requirements

Business Goals

In times of digitalization, the scanning of important documents has become an everyday occurrence. Today, thanks to the best technology, this is quick and easy. Our **ArchiveHelper** application ensures that scanned documents are stored directly in CRM.

Challenges

However, the classification of the scanned files is annoying and takes a lot of time, which could be used more sensibly. The **ArchiveHelper App** will return this time to you and thus reduces a costly process.

Financial Savings

An archiving process takes about 8 minutes, including all routes between the devices. The **ArchiveHelper App** reduces this time to 3 minutes.

For 10 operations on the working day = 30 minutes

Hourly rate $ 20 = $ 10 a day

220 working days per year = $ 2,200 per employee per year

Saving per year/employee: $3,665.2 with the ArchiveHelper App.

	Before	After
Cost / Day	$26.66	$10.00
Cost / Year	$5.86	$2.20
