

Visa Application Readiness

Scanning kiosk expedites approval

Situation

Real estate departments or companies, in some cases by law, need to file complaints, queries and other hardcopy documentation in a way that provides quick and easy access from various branch locations. The current hardcopy filing and sharing process is manual, time consuming, prone to error causing avoidable delays for real estate professionals and their customers. A better way to file, share and manage is needed.

Solution

e-dox electronic filing and routing via a customized scan app on the Xerox MFP to a dedicated destination in the document management system with the option to enter the client ID and a document type accordingly to the used taxonomy. Currently there are several document management systems supported such as EASY Archive, MS Share Point and **DocuShare**.

Getting Started

Assess realtor situation and workflow challenges

Understand their current technology infrastructure to support document storage or sharing.

Choose technology and implementation option from Technology Required.

Decide how you prefer to monetize and implement the solution.

Technology Required

ConnectKey MFP or minimum EIP 2.0 capable device

e-dox support of set up and integration with realtor's repository

e-dox letter App is a Cloud hosted solution
