

Managed Services

“Fenway Group provides great Managed Services. The associates provide quality work at a very competitive pricing structure. We maintain very high expectations going forward.”

Tucker Nix Managing Director at American Airlines

This is a Domestic Extension of your Corporation’s IT Organization

Fenway Group’s Managed Services provides solution sets that allow customer to prioritize internal resources on core competencies and keeps staff focused on supporting business growth while Fenway handles workflows and application maintenance. Our Managed Services provides the benefits if an in-house technical team with the cost saving advantage and reassurance of using a U.S.-based outsource service.

How We Deliver:

- Bringing a new perspective on organizational issues and assisting in the adoption of new industry tools and practices
- Quickly increment pod to achieve scale driving productivity and velocity
- Highly motivated and experienced staff which possess an ease of use of new technology
- Tailored Services Agreement to fit your requirements, resource needs, and budget
- Efficiency gains by reducing the amount of internal staff time dedicated to supporting and maintaining technical environments
- Clear baselines of current levels of service and scope to ensure a smooth transitory phase
