WORK CONDITIONING

LIFT BOX STANDARD FEATURES:

- Load Capacity: 100 lb.
- Hardwood plywood construction
- Two hand grips on each side

The PHS Medical Lift Boxes are designed for patients undergoing physical therapy and rehabilitation. Made with hardwood plywood construction, they are robust and can handle a 100 lb load capacity. The Lift Boxes feature four handgrip slots, two on each side, for hassle-free handling. Our 4 lift boxes vary in both size and shape and are perfect for rehabilitative patients to gain confidence and strength by performing a variety of workplace related tasks.
