

ADVANTAGES

of Choosing the DOC Spinal Decompression Table

WHAT IS THE DOC Spinal Decompression Table?

The unique design of the **DOC Decompression table** utilizes a stateof-the-art digital command center for specific vertebral targeting, separate lumbar and cervical traction programming and continuous readout and graphing of treatment protocols. In addition, the digital command center also controls table elevation at the push of a button.

Current patients with disc-related injuries can start treatment on the DOC Decompression Table right away.

The **DOC Decompression Table** aims to relieve pain while producing a healthy healing environment for bulging, degenerating and herniated discs along with other spine related injuries and conditions.

The DOC Spinal Decompression Table can be used by a variety of patients.

One-Touch, Automated Control with Digital Command Center

- Automated control over elevation
- Specific Vertebral targeting
- Separate lumbar and cervical decompression programming
- Continuous readout and graphing of treatment parameters

The 8-inch, full color screen has a built-in Disc Angle Level Indicator that allows you to quickly target specific vertebral discs, making treatments accurate and effective. Choose from preprogrammed protocols or create your own With 6 Legacy and 5 K Pattern preprogrammed decompression protocols, your table will be ready to treat a wide variety of patient conditions. For difficult cases and situations that require advanced treatment, you also have the ability to create your own fully customized protocols to best meet the needs of your patients.

Get Treatment Feedback in Real Time The DOC's digital display provides you with real-time graphing of treatments, cycle time and decompression force. This makes it easier to adjust treatments and fine tune protocol.

Using a precise load cell and biofeedback system, your table will continually measure and respond:

- Decrease spasms
- Promote relaxation
- Encourage higher negative pressures inside discs

Make Treatments Customizable, Specific and Effective

Our custom software allows for quick and easy fine tuning of:

- Time
- Angle
- Relax time
- Force
- Hold time
- Table height

The DOC Decompression Table offers optimal patient comfort and safety.

DOC Table Specifications

Table Weight: 520 lbs.Load Capacity: 350 lbs.Retracted Length: 77"Extended Length: 86"Pelvic cushion width: 27"Hand pad to hand pad width: 30"

77" L

The DOC includes the following:

Bolsters and Pillows

The DOC's knee pillows and arm rests don't just keep your table in great shape – they also keep your patients' hips in flexion, which can be a huge aid to patients suffering from certain conditions. Our specially designed head pillow promotes restoration of the cervical curve while inducing a relaxed state.

Cervical Headpiece

- Fully adjustable
- Added comfort pads
- More secure (less slipping)
- Increased effectiveness
- Decreases any discomfort during and /or after treatment

Separate Lumbar and Cervical Motors

Instead of using the same traction headpiece to treat both the lumbar and cervical spine (which requires spinning the patient 180 degrees and puts the patients head where the previous patients' feet were), the DOC has separate lumbar and cervical motors that operate independently, so there is no need to change patient position when switching from lumbar to cervical. This saves time and increases efficiency.

Keep Patients Safe with Automated Controls

Patient safety always comes first. Every DOC Table includes a Patient Safety Switch that allows patients to stop the treatment in the event of pain, spasm or discomfort. All of our tables come with automated computer controls. You won't need to worry about pinch points on the table or tripping on foot pedals.

Effectively Treat Patients of All Sizes

The DOC Spinal Decompression table features a full lumbar harness designed to make it easy to treat patients of all sizes.

The DOC harness system:

- Is easy to set up
- Treats larger patients
- Saves time

Treat a Wider Variety of Conditions and More Difficult Cases

The DOC Spinal Decompression Table allows you to treat patients in a variety of positions making it one of the most advanced Decompression Tables on the market.

Supine Flexion

Great for patients suffering from conditions where flexion improves symptoms.

Supine Extension

The ideal position for older or heavier patients who can't tolerate prone decompression but benefit from extension with disc herniations or disc bulging.

Prone Flexion

The ideal patient position for patients suffering from symptoms of Spinal Stenosis.

Prone Extension

The ideal patient position for younger patients who can tolerate prone positioning for symptoms of disc herniations and disc bulges.

Lateral Flexion

Laterally flexing away from a disc herniation can dramatically help improve disc herniation outcomes. It is also effective for symptoms of antalgic patients.

Rotation Effective patient position for antalgic patients.

The DOC Spinal Decompression Table allows you to multi-task and add more patients to your schedule.

Once treatment is started, it is controlled digitally. This allows chiropractors to tend to other patients while a chiropractic assistant helps with the treatment. This could potentially allow you to add more patients to your schedule.

The ergonomic design of the **DOC Decompression Table** can ease you, your patients and your bank account.

With a 21-29 inch height range, both clinicians and patients of all sizes can easily use this table.

Additionally, because of its adjustable design. the DOC may quality for the Section 44 Tax **Credit** (savings up to \$5.000) under the Americans with Disabilities Act. Consult your tax professional.

Minimize physical and monetarv stress

"As a financial specialist with more than 10 years of experience, I would highly recommend chiropractors, physical therapists and medical doctors to take advantage of the potential thousands of dollars you could save by optimizing a purchase that gualifies for the ADA Section 44 Tax Credit combined with the Section 179 Equipment depreciation tax code. IF you are not utilizing these credits and write-offs, you could be losing out on thousands every year."

- Emily Blair, Financing Specialist

Customers are extremely satisfied with their DOC Decompression Tables.

"The DOC Decompression Table has been a huge asset to my practice.

It has given me leverage I didn't have before. I am able to treat patients I otherwise have to refer out as well as produce results I would not have been able to produce without the DOC table. It has allowed me to further grow my practice and stick out in a community."

- Dr. Kayla in Louisiana

"The table was delivered with the 'White Glove' experience so there were absolutely no worries. I was trained on the same day with all my questions answered and felt extremely comfortable with everything this amazing table has to offer."

- Andrew Kellogg, DC

"I love how there are so many options to position the patient to give them a comfortable and pain-free experience." - Dr. Brent Wall, Chiropractor

"The DOC Spinal Decompression System can dramatically affect the pain associated with spinal injuries and conditions. Best of all, it's the most comfortable belting system I've ever used, making is easier for you to relax and get more out of the treatment."

- Champion Chiropractic

"The DOC cervical is more comfortable and just as effective as my \$100,000 table. My previous DRX9000 cervical decompression table would consistently get comments like 'it causes my head to go numb, it's really uncomfortable under my occiput, it gives me a temporary headache,' and more. After switching to the DOC Decompression Cervical table, I have found the DOC cervical to be more comfortable for patients and just as effective as my \$100,000 table."

- Dr. Brian Self | Phoenix, AZ

"Our office has been very pleased with the DOC Decompression Table. It's very user-friendly and comfortable for our patients." - Jennifer Dufour, DC

"I absolutely love my decompression table! The service provided was exceptional and professional in every way. They provided amazing training with my purchase and I was ready to utilize the table the very next day with total confidence." - Sarah Little, DC
