HOW YOUR SUBSCRIPTION WORKS

1.

ONBOARDING

A good marketing strategy will not only focus on how to get your business from A to B, it will detail any obstacles you may come up against and strategies to push through. That's why we begin our journey together with a discovery workshop and audit/strategy session to set the scene.

Your subscription cost may change following the onboarding as we may discover things you do and do not need.

2.

MONTHLY MARKETING SUPPORT

Following your on-boarding, you will have access to a marketing manager who will facilitate the services listed in this proposal.

Once you have reached your limit of service inclusions within your subscription, we will either provide you with an estimate to complete required services, or discuss increasing your subscription package to accommodate your needs moving forward. Alternatively, should we discover you do not need some of the services, we can decrease your monthly subscription.

3.

ADDITIONAL SERVICES

Additional services outside of your subscription and the setup of any marketing systems or platforms are quoted as a separate cost. This includes, but is not limited to:

- Email marketing platforms setup
- Video Production
- Copywriting [not including content for blogs etc.]
- Social Media page setups
- Google AdWords account & campaign setup
- Website design and development
- CRM & Marketing Automation systems

HOW YOUR ONBOARDING WORKS

Before we can start doing some great marketing together, we need to understand more about what you have done in the past, what has and hasn't worked, and what your focus is moving forward. The following two workshops help us set the scene and provide us with all we need to deliver a marketing plan for your business.

DISCOVERY & AUDIT SESSION

We'll go through your business plan and goals, and audit past and current marketing strategies and activities, market position and customers. This is important so we understand what has and hasn't worked in your past marketing efforts, and understand more about your customers.

"FOCUS" WORKSHOP

In this session, we focus in on your branding, marketing and specific challenges such as competitive threats, new product introduction, etc. We'll also identify marketing opportunities, KPIs and goals, and strategies to achieve these goals. Following this workshop, your Marketing Manager will provide you with our very own marketing plan.

If you already have a documented marketing plan, your onboarding will be shorter than usual.
