Q: What is a forbearance?

A: A forbearance is a temporary suspension of your monthly mortgage payment. During the forbearance period, your payments are suspended for a set period of time. Please note: At the end of the forbearance period, your suspended payments will be due.

For example:

John's monthly mortgage payment is \$1,000 and is due on March 1. He opts in for a forbearance in March. As a result, the forbearance period will run from March through May. John's monthly mortgage payment is \$1,000 and is due April 1. He opts in for a forbearance in March. As a result, the forbearance period will run from April through June. At the end of the forbearance period, John will owe a total of \$4,000 on July 1 - \$3000 for April through June, plus his July payment of \$1000.

Q: How will a forbearance plan impact my loan?

A: A forbearance plan is a temporary suspension of your monthly mortgage payment. During the forbearance period, payments are not required. Negative credit reporting and late charges will not occur during the duration of the plan.

Q: Do I need to apply for a forbearance?

A: If your finances have been directly impacted by the COVID-19 Corona virus, once you contact us and based on investor guidelines, you may qualify for a minimum three month forbearance plan. In some cases, you may be required to submit a complete package to be reviewed for all loss mitigation options, which includes a forbearance plan (VA and USDA loans).

Q: When will I need to repay the payments that were due at the end of the forbearance period?

A: The suspended payments will be due at the end of the forbearance period, however, you will be contacted towards the end of the forbearance plan to reassess your current circumstances and you will be provided with information on alternatives that may be available to you at that time.
