

BalanceWear® Certification Guide

Wear Your Balance and Improve Your Mobility
Motion Therapeutics, Inc.

How to get Certified with BBTW?

Dear Clinician,

Thank you for your interest in getting Certified as a BBTW-Trained Clinician.

You and your staff can visit <https://www.balanceweareducation.com> and click on the enroll now button to access the first 2 Webinars (FREE).

Once you finish the free class, it is \$550.00 for the class which includes the next three webinars, a virtual meeting with me to work with a family member/friend/ colleague.

Then I meet online with you several times until you feel comfortable with patients, this could be 3-4 patients. In addition, for Certification, you will write a mini case report and send in a video.

The cost of the assessment kit is \$550.

I recommend that you will have a dynamometer to learn your perturbations.

Kind Regards,

Cynthia Gibson-Horn, PT, Founder, Inventor
