

Universal Installation Instructions

1. Uninstall any previous installation of the software. In order to do this properly, there are two files to uninstall:
 - a. Delmhorst Universal Application
 - b. TUSB3410 Driver
2. Depending on how your computer is setup, the following files may not include the extension “.exe”
3. Double click on the file “tusb3410_driver_v6.7.4.0_setup.exe.”
4. On the succession of dialog boxes that follows, click: Yes, Next, “I accept the terms..”, Next, Install and Finish.
5. Double Click on the file “Setup.exe”
6. On the succession of dialog boxes that follows, click: Yes, Next, Next, Next, Finish.

The software is installed.
