11	10
12	11
13	11.5
14	12.5
15	13.5
16	14
17	15
18	16
19	16.5
20	17.5
25	21.5
30	25.5
40	34

**Above readings taken with equipment as follows:**

**Meter: F-2000**

**Electrode: H-4 & 831 Prod**

**NOTES -** Readings rounded to nearest 0.5 - use as a guideline

**For best results, use a 1 quart teflon container & fill to the top.**

**Press the electrode (H-4 with 831 prod) into the material until it compresses to 1/3 the volume. Take the reading. Take several readings for an average.**
