

INTRODUCING THE WORLD'S MOST ADVANCED AND ACCURATE HANDHELD GRAIN MOISTURE TESTER

PRECISION FARMING REQUIRES PRECISION MOISTURE TESTING
Farmers rely on state-of-the-art equipment to produce the highest quality product. The new Delmhorst D999FR grain moisture tester, with the most accurate moisture readings in the industry, gives farmers what they demand - maximum yield for maximum profits.

MOISTURE TESTER 999 FR

**MORE THAN 250 GRAIN
CALIBRATIONS**

**WIDE TEMPERATURE RANGE FOR TESTING
FROZEN AND HOT GRAIN**

**INDUSTRY EXCLUSIVE WIRELESS
COMMUNICATION**

Send readings directly to your phone

RECHARGEABLE BATTERY

Up to 8 hours of continuous use

ACCURATE MEASUREMENT

Industry Leading 0.1% accuracy

SAFE AND LIGHT
Exclusive Carrying Case

4.3" Color Touchscreen Display
provides moisture, temperature and
test weight on one screen

999-ES

Known worldwide as a USDA standard for Grain Moisture reading. The 999-ES is built to meet harsh environments and heavy use, like dryers, elevators, grain receiving and processing units.

Features

- ▶ **FAST AND RELIABLE:** Results in less than 10 seconds. Ideal for fast decision making and heavy use.
- ▶ **LOADS OF GRAIN PRESETS:** More than 250 grain calibrations loaded in memory; including USDA and CGC certified calibrations.
- ▶ **MULTIPLE SENSORS:** Fully automatic measuring process. Will display results of temperature (From 4F/-15C to 158F/70C), moisture and test weight.
- ▶ **BUILT-IN PRINTER**

999-FB

Ideal replacement for your old analog tester, combines cutting edge technology, accuracy and Durability

Features

- ▶ **EASILY EXPORT YOUR DATA:** USB Connectivity to download data to your own software
- ▶ **MULTIPLE SENSORS:** Will display results of temperature (From 4F/-15C to 158F/70C), moisture and test weight.
- ▶ **Measure Purity, Foreign Material and up to 10 types of damaged Kernels.**
