

Moisture Meter for Temperature

TM-100

The TM-100 measures temperature over the range of -40°C to 150°C. This meter is ideal for many applications in industry and agriculture as it can be used either in the air or in penetrable solids. The TM-100 uses reliable semiconductor technology and is built to withstand the most demanding applications.

Electrodes

PE-22

3' probe extension used with TS-107 sensor.

SH-44

Handle used with TS-107 sensor.

TS-102

Sensor used for liquids, gases, and ambient temperature. Stainless steel 5" probe.

TS-107

Used for penetrable solids like hay and grain. 3 1/2" aluminum and delrin with stainless steel tip. Must be used with SH-44 handle.

For 70 years, Delmhorst has been the leading manufacturer of high quality moisture meters and thermo-hygrometers. We offer a wide range of meters for a variety of applications including restoration, IAQ, flooring, woodworking/lumber, construction, agriculture, and paper. For further details on our entire line of products, visit us at our website.
