

## Navigator Pro Installation Instructions

1. Uninstall any previous installation of the software. In order to do this properly, there are two files to uninstall:
  - a. Navigator Series Application
  - b. TUSB3410 Driver
2. Depending on how your computer is setup, the following files may not include the extensions: ".msi" or ".exe"
3. Double click on the file "tusb3410\_driver\_v6.7.4.0\_setup.exe."
4. On the succession of dialog boxes that follows, click: Yes, Next, "I accept the terms..", Next, Install and Finish.
5. Double Click on the file "Setup.msi"
6. On the succession of dialog boxes that follows, click: Next, Next, Next, Yes and Close.

The software is installed.
