

Check AED Mobile App

Now Available on iTunes and Google Play

Ready and Compliant

AED's, while easy to use, require ongoing management and inspections to make certain they are Ready and Compliant. A well-designed AED program includes testing and maintaining your devices according to manufactures guidelines and local regulations.

Two Clicks Away

Customers who have purchased AED Program Management can now log into their account using an Apple or Android to record the routine inspection from their web enabled mobile device. With just two clicks and fewer than 30 seconds we can Guarantee your compliance and readiness to use an AED right from your web enabled device.
