# WHAT

#### What is permanent placement?

When CoreMedical Group seeks out a permanent placement for a candidate, we are seeking to match our best client opportunities to the most skilled staff. As the name indicates, permanent placements are long-term, full-time positions for candidates who are looking for better career prospects. Unlike temp-to-perm or travel contracts, once you sign on with a permanent placement, you become an employee of the client company. You gain access to the organization's benefits, receive a salary negotiated on your behalf, and often earn sign-on bonuses or relocation assistance.

### Who can get a job with CoreMedical?
