

Dear School Administrator,

Please continue reading for an important reminder related to the Family Empowerment Scholarship for the 2020-21 school year.

The Family Empowerment Scholarship is once-in, always-in meaning a formal application is not needed for a Family Empowerment Scholarship student after the first year.

- The Florida Department of Education, who administers the Family Empowerment Scholarship, sent a communication in January 2020 to current Family Empowerment Scholarship schools and families explaining the reenrollment process for the 2020-21 school year. If you have questions, please reach out to the Florida Department of Education at 850-245-0502.
- **Adding a sibling to the Family Empowerment Scholarship:** If a family with a current student on the Family Empowerment Scholarship (FES) would like to add a sibling to the FES scholarship, they should not complete a Step Up For Students online application. Instead, the family should complete the form emailed on Feb. 5, 2020 to all eligible families by Step Up For Students.

Sincerely,

Step Up For Students
