

FEBRUARY IS ...

Heart HEALTH MONTH

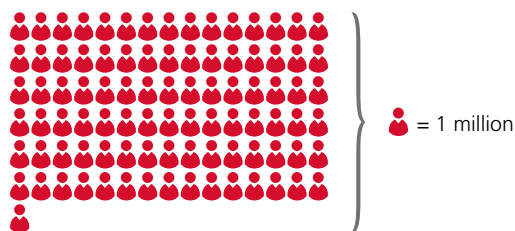

This month is dedicated to raising awareness about heart disease and increasing knowledge about prevention. Below are some statistics about heart disease, a leading cause of death in the United States.

EDUCATION IS EVERYTHING – KNOW THE FACTS!

1 in 3 adult deaths every year is caused by cardiovascular disease.

About **92.1 million** American adults are living with some form of cardiovascular disease or the after-effects of stroke.

IN THE UNITED STATES ALONE ...

836,546

That's the number of deaths attributed to cardiovascular disease each year (about 1 of every 3 deaths).

2,300

That's how many Americans die of cardiovascular disease each day, an average of 1 death every 38 seconds.

\$329.7 billion

That's the direct and indirect costs each year of cardiovascular disease and stroke.

BAYADA specialty practices include Home Health Care, Pediatrics, Hospice, and Habilitation.
