

Merchant Services

Did you know that you can now automatically process all your credit card and eCheck transactions within ClearView CRM?

Centralize your payments.

Batch entry, payment processing, and reconciliation are now fully integrated and available for ClearView CRM clients to use.

Consolidate your process.

Gone are the days of cross-referencing multiple statements and CRM reports to reconcile deposits, payments, and fees. ClearView CRM provides reconciliation reporting as soon as the transaction clears.

Get the best value.

Offering competitive rates, fully integrated functionality, and centralized service from an account team that is already familiar with your specific organization. Processing includes account updater for both credit card and eCheck (where available).
