

Level 3 Dashboards

Course Description

This two-day, hands on course shows how to leverage Dashboards for true user interaction. It explores the Dashboard concepts of advanced data queries, Business Rule functions, custom layouts, Workflow Integration, Data Blending and using Workspaces.

Who Should Attend

Only expert administrators and OneStream implementers who have experience designing and implementing Dashboards.

Prerequisites and Advanced Preparation

This is an advanced course. Students must have attended Application Build for Administrators, Level 2 Reporting and Level 2 Studio Basics.

In addition to the course prerequisites above, all attendees must have experience designing and implementing Dashboards. The basic concepts of a Dashboard Maintenance Unit will not be covered nor will step by step instructions be given. All attendees must be very comfortable with the concepts of a Dashboard Maintenance Unit, using Business Rules such as Dashboard Extenders, XFBR Strings and/or Dashboard Data Sets, advanced Dashboard Components and SQL data queries.

Registration

Training registration and payment are completed through our online registration system via the OneStream University website: www.onestreamsoftware.com/services/training. Payments can be made by credit card or wire transfer. Once registration is complete, you will receive a training confirmation and a receipt.

Complaints should be directed to training@onestreamsoftware.com or OneStream Support Portal at +1 (844) 663-3474.

Class Size

Public classes require a minimum of three students registered within seven days of the class start or they may be cancelled at OneStream's discretion. Once the registered class size reaches its limit (*differs by location*), it will be closed to additional students.

Agenda
