Engineered Controls Implements OneStream XF for Full Optimization of Corporate Financial Consolidation and Reporting

ROCHESTER, MICHIGAN—(August, 2015)—[OneStream Software LLC](#), leader in Corporate Performance Management (CPM) solutions for the mid to large enterprise, today announced another successful deployment of its unified solution for financial consolidation, reporting, planning, analysis and data quality.

“OneStream is pleased to welcome Engineered Controls to our growing list of successful customers.” says Tom Shea, President of OneStream Software. “OneStream XF maximizes the value of financial reporting by delivering multiple solutions in one application. By implementing our unified CPM solution, ECI now has the ability to adapt quickly to business changes with more accurate decisions and capitalize on future opportunities.”

Engineered Controls International, LLC, a global specialty valve and control supplier to the industrial and alternate fuel market, joins an elite list of organizations around the world that have implemented OneStream XF. After evaluating OneStream, as well as alternative solutions on the market, Engineered Controls chose OneStream XF for its flexibility, Guided Workflows and the capability to generate detailed reports.

“As Engineered Controls continues to expand we realized that we needed a unified CPM solution that could be tailored to meet our specific needs.” said Kevin Black, Financial Reporting Manager, of Engineered Controls. “It was very important to us that this was a finance owned solution and OneStream XF offers us a significant cost of ownership advantage. Additionally, OneStream XF has allowed us to adjust reporting needs on the fly without requiring additional bolt-on applications. OneStream has proven to be extremely IT friendly with a half-day software installation and just a couple of hours for a full upgrade. We have already seen the benefits of implementing OneStream XF with faster monthly reporting and improved processes translating into more confidence in our financial reporting.”

OneStream XF, is a single, unified Corporate Performance Management software platform that simplifies processes to deliver financial reporting and operational analytics for complex organizations. OneStream provides finance business users with simple Guided Workflows to simultaneously improve the quality and consistency of data while reducing risk throughout the financial consolidation, reporting and planning processes.
