FOR IMMEDIATE RELEASE

OneStream Software Chosen by Q'Max Solutions for its Expertise in the Corporate Performance Management Arena

ROCHESTER, MICHIGAN—(October, 2015)—OneStream Software LLC, leader in Corporate Performance Management (CPM) solutions for the mid to large enterprise, today announced they were selected by Q'Max Solutions to meet its financial consolidation, reporting, planning, analysis and data quality needs.

"OneStream welcomes Q'Max Solutions to its growing list of successful customers," says Tom Shea, President of OneStream Software. "OneStream XF delivers more power, functionality, simplified maintenance and dimensionality unmatched by other CPM vendors on the market. After meeting with Q'Max we knew we could provide them with a more accurate, flexible and easily maintained finance and reporting solution with a lower cost of ownership. Using our unified CPM solution Q'Max will now be able to eliminate financial reporting errors and focus on delivering valuable corporate analysis and reports, critical to the growth of their company."

Q'Max Solutions, a large independent oilfield services company, joins an elite list of organizations around the world that have selected OneStream XF for its corporate performance management solution. After evaluating OneStream, as well as competing solutions on the market, Q'Max chose OneStream XF for its currency translation, Guided Workflows, dimensionality, interactive dashboards, XF Office Integrator and the overall expertise brought to the table by employees of OneStream.

"It was time for Q'Max to upgrade its current outdated and inefficient financial reporting system," said Adán Belgodere, Controller, South America, Q'Max Solutions. "We met with several CPM vendors on the market and none of the other vendors met my expectations like OneStream did. Their experience as the inventors of the market leading CPM solutions of the last decade was really important to us. When you hear the overwhelming positive customer feedback and see the additional capabilities of the OneStream XF platform, you know that they have a really powerful solution along with tremendous customer support. The decision becomes easy when you see all the solutions OneStream XF offers in one product which reduces our total lower cost of ownership. OneStream XF provides our office of finance with the ability to accurately report, budget, forecast and consolidate without compromise."

OneStream XF, is a single, unified Corporate Performance Management software platform that simplifies processes to deliver financial consolidation and reporting, planning and operational analytics for complex organizations. Guided Workflows simultaneously improve the quality and consistency of data while reducing risk throughout the financial consolidation, reporting and planning processes.
