

## FOR IMMEDIATE RELEASE

### **OneStream Software Ranked #25 Fastest-Growing Private Software Company for 2015**

ROCHESTER, MICHIGAN—(October, 2016)— OneStream Software LLC, leader in Corporate Performance Management (CPM) solutions, is proud to announce it was ranked #25 fastest-growing private software company, #9 top Michigan company and #5 top Detroit company by *Inc.* magazine.

Last month, *Inc.* magazine published their annual *Inc.* 5000 list of fastest-growing private companies. The average company on the list achieved a mind-boggling three-year growth of 433%. The *Inc.* 5000's aggregate revenue is \$200 billion, and the companies on the list collectively generated 640,000 jobs over the past three years, or about 8% of all jobs created in the entire economy during that period. The list represents a unique look at the most successful companies within the American economy's most dynamic segment— its independent small businesses. Companies such as Microsoft, Dell, Domino's Pizza, Pandora, Timberland, LinkedIn, Yelp, Zillow, and many other well-known names gained their first national exposure as honorees of the *Inc.* 5000.

"With an astounding three-year growth rate of 1345%, over 3 times the average for companies on the *Inc.* 5000 list, OneStream Software achieved a first time ranking of #293. In the software industry category, only four other companies listed on the *Inc.* 5000 have a higher revenue base and greater growth than OneStream," says Tom Shea, President of OneStream Software. "The *Inc.* 5000 list is the most prestigious ranking of the nation's fastest-growing private companies and we are thrilled to be ranked at #293, #25 software company and #5 in Detroit. Our growth has been exponential and all without the backing from external sources and never at the expense of quality and service to our customers. All of this has been done with a continued 100% reference ability. We are building a sustainable business that capitalizes on success."

OneStream Software, founded in 2010, is a leader in Corporate Performance Management solutions for the mid to large enterprise. OneStream's single unified SmartCPM platform, OneStream XE, simplifies processes to deliver financial consolidation and reporting, planning and operational analytics for complex organizations. By eliminating the need to integrate multiple products or applications together, OneStream customers enjoy the multiple benefits of owning a single agile CPM system which is capable of adapting to business changes quickly and easily. OneStream's powerful solution provides a lower total of ownership and can easily be extended with free downloadable applications from the XE Marketplace (including Account Reconciliations and Specialty Planning solutions).

#### **More about *Inc.* and the *Inc.* 500|5000**

##### Methodology

The 2016 *Inc.* 5000 is ranked according to percentage revenue growth when comparing 2012 to 2015. To qualify, companies must have been founded and generating revenue by March 31, 2012. They had to be U.S.-based, privately held, for profit, and independent—not subsidiaries or divisions of other companies—as of December 31, 2015. (Since then, a number of companies on the list have gone public or been acquired.) The minimum revenue required for 2012 is \$100,000; the minimum for 2015 is \$2 million. As always, *Inc.* reserves the right to decline

applicants for subjective reasons. Companies on the Inc. 500 are featured in Inc.'s September issue. They represent the top tier of the Inc. 5000, which can be found at <http://www.inc.com/inc5000>.

#### **About OneStream Software LLC**

OneStream Software is a privately held software company created by the same team that invented the leading financial solutions of the last decade. We provide a unified Corporate Performance Management (CPM) platform which enables the enterprise to simplify financial consolidation, reporting, budgeting and forecasting for complex organizations. This powerful platform can be extended with simple downloads from our XF MarketPlace to enable the enterprise to deliver additional analytic solutions without adding any technical complexity. By delivering multiple solutions in one application, we offer increased capabilities for financial reporting and analysis while reducing the risk, complexity and total cost of ownership for our customers. We are driven by our mission statement that every customer must be a reference and success.
