HANDS-ON WORKSHOPS

Workshop cost: $800

All workshops are offered on Tuesday, May 14 and include breakfast and lunch in the cost.

End User Workshops

Designed for OneStream prospects. Navigate through a simple Workflow viewing some of OneStream's key Workflow concepts.

The second part of this workshop introduces some key OneStream reporting tools so attendees can gain an appreciation for what is possible. It allows attendees to explore how reports are built, where reports are stored, and how they are used in OneStream.

Tuesday, 9:00am-4:30pm with a 1-hour lunch break

Offered to Prospects only

Power User Workshop

Designed for OneStream customers looking to gain more exposure to functional concepts within OneStream.

There are no prerequisites required, however, this workshop focuses on functional administration and reporting within OneStream. The workshop introduces some key OneStream functionality so attendees can gain insight to Reporting, Dashboarding, Excel Add-in, and Metadata through guided exercises.

Skill Level: Basic

Tuesday, 9:00am-4:00pm with a 1-hour lunch break

Offered to Existing Customers only

Administrator Workshops

Designed for seasoned OneStream users looking to gain more exposure to specific concepts and tips and tricks for any OneStream application.

There are no prerequisites required, however, these are advanced workshops where OneStream XF experience is highly recommended. The Administrator Workshops are best positioned for attendees who have had some level of training and past experience with these OneStream features. New users or those without OneStream experience will benefit more from the End User Workshops.

Topics Include:

Account Reconciliations Part 1

Account Reconciliations Part 2
