## RIDESHARE INTEGRATION

The only solution that offers rideshare, reimbursement and comprehensive reporting within one portal.

With ClinCard's  
rideshare:

**Eliminate financial & logistical barriers to participation**

**Deliver seamless ride-request workflow**

**Optimize site & participant experience**

**Centralize reimbursement and travel budget**

### Remove Logistical Hurdles to Clinical Trial Participation with Rideshare Integration

Clinical trials are more complex and more burdensome for participants than ever before. With a heightened focus on participant-centricity, travel services are becoming critical for patient retention.

Through the ClinCard portal, site coordinators can seamlessly request a ride for participants with a real-time view into ride status.

This offering removes out-of-pocket costs and provides added convenience for participants, while ensuring a simple workflow for site staff. Centralizing the payments and travel budget within a singular platform provides complete financial control, transparency and predictability for all participant-related expenditures.

**Bring the simplicity of rideshare to your clinical trials with ClinCard!**

# WHY USE GREENPHIRE VS. RIDESHARE COMPANY DIRECT?

	Rideshare Company Direct	Rideshare Through  ClinCard®
