

SMARTER BUDGETING

Transforming the budget build and negotiation lifecycle for clinical trial sponsors and CROs - delivering efficiency and accuracy for a streamlined and optimized study start-up.

With EnvisiX you gain:

Streamlined budget creation and negotiation workflow

Automated return into future of global investigator grants data

Ease of collaboration between sponsors, CROs and sites

Integration with industry-leading site payment solution

Optimized Study Startup Through a Streamlined Budget Build and Negotiation Workflow

EnvisiX enables sponsors and CROs to effectively and efficiently build a study budget through a centralized portal that simplifies collaboration. The tool provides a streamlined and controlled workflow for budget creation and negotiation for sponsors and CROs with complete transparency and management of rates, adjustments, adjudications, approvals and more. With EnvisiX, you can achieve the 'First Patient In' milestone sooner.

Integration with Industry Leading Site Payment Solution, eClinicalGPS

Designed with a focus on enhanced user experience, EnvisiX is integrated with our industry leading site payment solution. This enables a seamless end-to-end workflow from budget build and negotiation to management, execution and tracking of global investigator grants - all within one application.

Global Budget Negotiation and Contract Execution Services

To complement our budget build and negotiation technology, Greenphire offers budget negotiation and contract execution services. This includes expert teams of local negotiators with country-level budget knowledge and international lawyers providing in-country consultation and regulatory oversight and guidance.

Design and execute your study with smart technology and industry experts on your side.

Benefit from a host of key features to enhance your study startup:

- Intuitive spreadsheet-like visit schedule design
- Intelligent import of Protocol Schedule of Assessments
- Template hierarchy (study, country, site)
- Integration with eClinicalGPS site payment solution
- Automated return of negotiated investigator grant actuals
- Exportable audit-ready reporting

Smarter Budgeting from Day One.
