FLEXIBLE DELIVERY MODELS

eClinicalGPS, the most advanced and widely-adopted site payment software in the world is available in three unique delivery models, allowing more Sponsors and CROs to take advantage of the investigator payment automation opportunity.

Full-Service Payment Partner

Greenphire partners with CROs and Sponsors to serve as a site payment partner or Functional Service Provider (FSP), with the largest team of experts exclusively focused on site payment optimization, controlling everything from study set up through payment execution.

You're in Control

A SaaS-based solution, eClinicalGPS offers the flexibility to provide Sponsors and CROs the ability to fully control the software, including study set up and payment execution.

A Hybrid Approach

Greenphire works with its client partners to align any combination of software and services to meet their needs. Available on-demand, Sponsors and CROs can engage Greenphire's team and tools to meet the evolving needs of their study portfolios.
