Order of assembly for the LCD panel set-up:

1. It is easier to fit the LCD to the panel before assembling your wall. First remove the mounting plate from the panel by undoing the 2 x knurled bolts at the back.

2. Fit the plate to the back of the LCD using the four M4 bolts & the 2.5 mm Allen key provided.

3. Connect up the cables to the LCD & feed them through the cable management hole in the panel.

4. Offer the LCD monitor up to the panel & use the 2 x M6 knurled bolts to fix.
