- Tracking links help you to determine which traffic sources are generating conversions
- Post event metrics help you to track the performance of your marketing efforts over time

BENEFITS FOR BOTH EVENT HOSTS AND EMPLOYERS/ EXHIBITORS

BENEFIT 1: REACH HIGHER QUALITY CANDIDATES

- ► Go broader: Remove geographical constraints and reach candidates anywhere and everywhere
- ► Go more niche: Target smaller and more granular talent pools efficiently (e.g., Diversity and Inclusion)
- ► Go native: Most candidates are digital natives, and are more likely to engage with you online than in person
- ► Go digital: Today's hiring process is all digital. Making your first contact with candidates online increases the likelihood of pushing candidates further down the funnel, and ultimately into hires
- ► Go Passive: By not forcing candidates to travel and making it easier for them to join an event from their phone, you tap into more passive candidates

BENEFIT 2: OPTIMIZE YOUR RECRUITING RESOURCES

- ► Your Time: Reduce time spent on travel
- Your Expenses: Reduce costs associated with travel, lodging and Branded materials (booths, swag, etc.)
- Your Response time: Reduce follow-up lag and get back to candidates faster

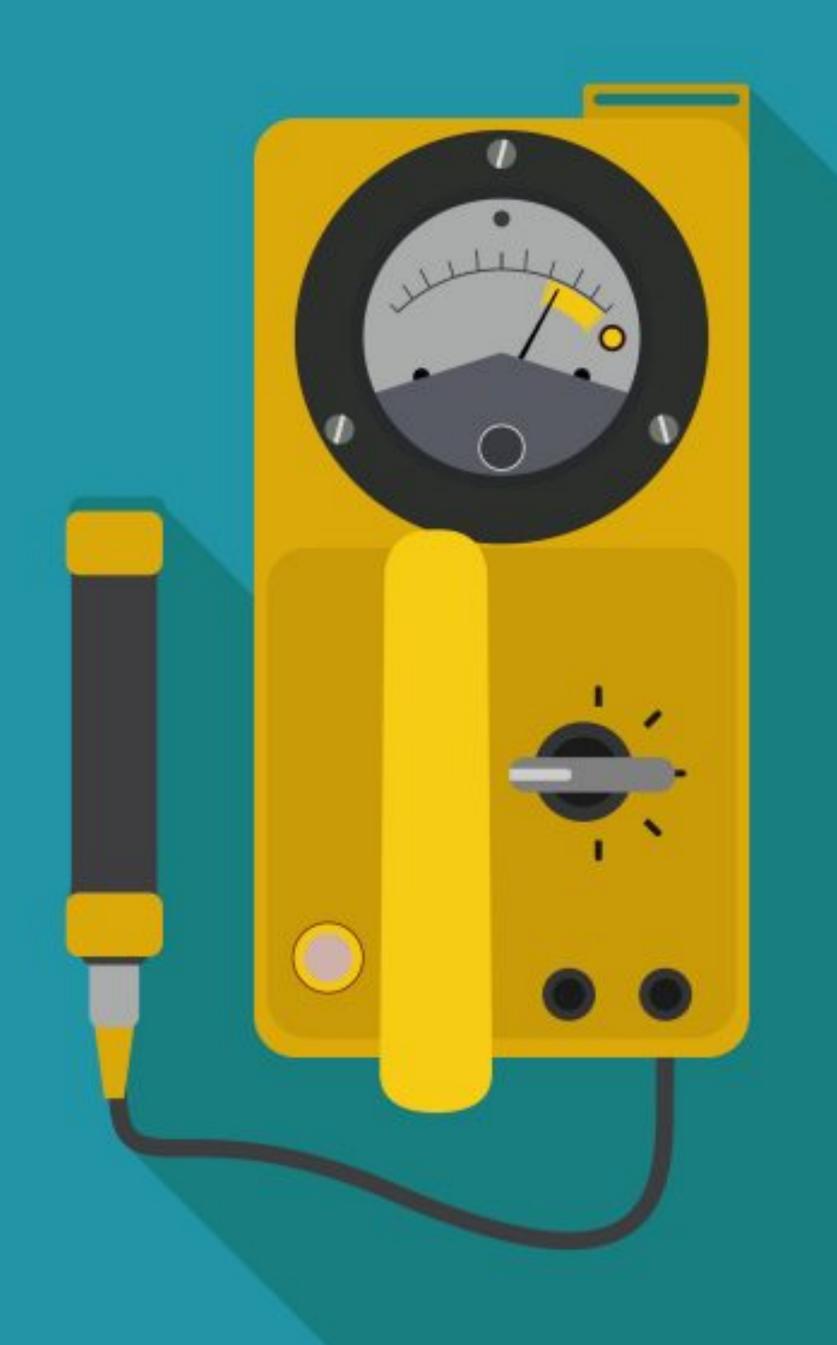

BENEFIT 3: IMPROVE YOUR HIRING OUTCOMES

- ► A better candidate experience: Brazen's recently redesigned user interface delivers quality candidate experiences to all participants, candidate AND recruiters
- Virtual events can be advertised via job boards just as easily as physical events and often yield better job traffic conversions
- Lower cost-to hire: Virtual events have been proven to convert candidates at 2X the rate of other calls-to-action including the "Apply" button. These higher conversion rates tend to hold steady all the way to hire. Higher conversion rates translate to lower cost-to hire

KEY METRICS WE TRACK

Measuring virtual event effectiveness is critical in evaluating ROI. Brazen collects and reports the following key metrics

- Outreach conversions: number of candidates that start the event registration process
- ► Registrants: number of candidates that complete the event registration process
- ► Attendees: number of candidates that actually attend the virtual event
- ► Chats: number of one-on-one chats that took place during the virtual event per booth
- Quality of candidates: Recruiter ratings of candidates and assessments of "next steps"
- Candidate and recruiter experience: post event candidate and recruiter survey data
