Care You Can Count On

Care You Can Count On

Our goal is to provide you with excellent care from diagnosis to treatment of your digestive tract illnesses and conditions.

We are committed to ensuring your safety, providing outstanding customer service, and a continuum of care.

Our Team

Gastroenterologist Dr. Krupal Patel leads a highly trained and experienced team of nurses and techs who assist him as he performs endoscopies, colonoscopies, bronchoscopies, biopsies and other procedures in Lane's state-of-the-art Endoscopy suites.

Dr. Patel specializes in comprehensive diagnosis and management of the digestive tract, inflammatory bowel diseases, such as ulcerative colitis and Crohn's, as well as liver and pancreatic diseases, including hepatitis, cirrhosis, primary biliary cholangitis, pancreatitis and other autoimmune disorders.

In addition to colonoscopy screenings and upper endoscopies, Dr. Patel is experienced in ERCP (endoscopic retrograde cholangiopancreatography) to diagnose diseases of the biliary system and gallbladder. He is also trained in therapeutic endoscopic procedures, dilation procedures, and the placement of endoluminal stents for gastrointestinal tract obstructions.

"Illnesses and conditions affecting the digestive tract can significantly impact a person's quality of life."

"For those with chronic conditions, I look for ways to manage their disease to improve their health and make life easier."

- Dr. Patel
